DESCRIPTORS	Directories; *Educational Coordination; *Governing Boards; Guides; *Higher Education; Master Plans; *Post Secondary Education; Private Colleges; Research Projects; *State Action; State Agencies; *State Programs; *Statewide Planning; Statistical Data; Vocational Education

ABSTRACT

This profiles handbook presents a narrative statement about the statewide postsecondary agencies that administer statewide programs and coordinate and plan for postsecondary education. A brief statistical section is also included as well as a listing of recent publications and studies underway in each of the states. This listing gives further information about the scope of activities conducted and the planning and policy issues that are of immediate concern. The information for each state includes the following: (1) state structure (state-level coordinating and/or governing agency, institutional governing boards, master planning, 1202 Commission, state student assistance and loan agencies, state board of vocational education, state level organization of private colleges, and licensure/approval agencies); (2) descriptive statistics (basic data, migration table, and enrollment table); (3) current publications and reports; and planned research studies and publications. (LBH)

INTRODUCTION

There is a widespread interest in the various state agencies and structural arrangements used to plan and coordinate postsecondary education in the states. The Education Commission of the States (ECS) has for several years responded to that interest by providing, in tabular form, a description of the legal bases, board membership, staffing and basic responsibilities of the statewide coordinating and/or governing agency and public institutional governing boards. These surveys, however, did not provide the detail concerning the functions of these agencies or boards nor were the responsibilities of the other state agencies described in Part I of this handbook included. Thus the full scope of postsecondary education in each state was not indicated.

This profiles handbook presents in narrative form a statement about the statewide postsecondary agencies that administer statewide programs, coordinate and plan for postsecondary education. As noted below, a brief statistical section is also included as well as a listing of recent publications and studies underway in each of the states. This listing gives further information about the scope of activities conducted and the planning and policy issues that are of most immediate concern. As this is the first edition of the new format, we would appreciate any suggestions for improvement of the format or content of the handbook.

Development and preparation of the State Postsecondary Education Profiles Handbook was begun in the fall of 1975 under the cosponsorship of the Education Commission of the States (ECS), the ECS Evaluation and Improvement of Statewide Planning project (ESP), the National Center for Higher Education Management Systems at WICHE (NCHEMS) and the State Higher Education Executive Officers Association (SHEEO). Support was provided by the W. K. Kellogg Foundation, the Lilly Endowment, Inc., the National Institute of Education and the Education Commission of the States. At its annual meeting, July 30-August 1, 1975, the SHEEO membership endorsed the project and agreed to insure that the information for each state and its agencies would be provided.

The material contained in the handbook for Part I for each state is based on the surveys of statewide structures of postsecondary education conducted by ECS and most recently published in Higher Education in the States, Volume 4, Number 10, in May 1975. In December 1975, this material was updated and expanded and a profile was prepared for each state, including the descriptive statistics developed by NCHEMS, and forwarded to the states for verification and correction. By date of publication, the materials had been verified and corrected by 49 states and the District of Columbia.

The information for each state includes the following outline:

I. State Structure

    A. State-Level Coordinating and/or Governing Agency
    B. Institutional Governing Boards
    C. Master Planning

  - D. 1202 Commission
  - E. State Student Assistance and Loan Agencies
  - F. State Board of Vocational Education
  - G. State-Level Organization of Private Colleges
  - H. Licensure/Approval Agencies

II. Descriptive Statistics

  - A. Basic Data
  - B. Migration Table
  - C. Enrollment Table

III. Current Publications and Reports (September 1974-September 1975)

IV. Planned Research Studies and Publications (September 1975-September 1976)

In the fall of 1976, each section will be updated, including any statutory or constitutional changes affecting the agencies described in Part I. Additional copies of the handbook, at a charge of $5.00 each, are available from the Department of Higher Education Services, ECS, 1860 Lincoln Street, Suite 300, Denver, Colorado 80203.

Acknowledgments

The cosponsoring agencies appreciate the assistance and cooperation of the SHEEO members who assumed the responsibility for verifying and correcting each of their state's profile in communication with the other agencies. A listing of the SHEEO membership is contained in Appendix D.

Primary responsibility for the development and final preparation of the profiles handbook was assumed by the ECS Department of Higher Education, under the direction of Richard M. Millard; the ECS Evaluation of Statewide Planning project, directed by John K. Folger; and the NCHEMS State Level Information Base project, directed by Melvin Orwig. Compilation of Part I was provided by Aims C. McGuinness Jr., ESP assistant project director; and Jane Ellen Muller, ECS research assistant. The descriptive materials and tables in Part II were developed and coordinated for NCHEMS by Ed Myers, graduate assistant. Ellen Cherin assisted in the data retrieval and Cindy Labuda was responsible for the typing of Part II. Overall production coordination and final editing of the handbook was provided by Nancy M. Berve, ECS associate director of higher education services, assisted by Adrienne Sack, who compiled Parts III and IV and was responsible for the typing and proofing of the publication. The staff is appreciative of the assistance given by Rochelle LaValley, ECS Communications Department editorial production coordinator.

ALABAMA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Commission on Higher Education, the statutory coordinating agency for public higher education, was established in 1969. The commission is composed of nine members appointed by the governor and confirmed by the state senate: seven are appointed from congressional districts and two represent the state at large. Each serves a nine-year term of office. The statutory authority of the commission includes planning, coordination, budget review for individual institutions and recommendation of a consolidated budget and program review for the state's public senior and junior institutions. The commission is not a cabinet department. The executive officer of the agency is appointed by the board and serves at the pleasure of the board.

Institutional Governing Boards

The state has two multicampus governing boards established by the state constitution with powers delineated by the state legislature -- the Board of Trustees of the University of Alabama for three senior institutions and the Board of Trustees of Auburn University for two senior institutions. Each of 8 other state universities has a separate governing board and 1 upper-division college and 20 junior colleges are governed by the State Board of Education.

Master Planning

The first master plan was officially adopted by the commission during 1974 which contains a summary and systemwide recommendations with detailed and programmatic studies to follow. The scope of this first document covers the historical background, current situation and general recommendations for higher education in Alabama.

1202 Commission

The Alabama Postsecondary 1202 Commission is separate from the Commission on Higher Education and was designated by the governor in response to the U.S. Commissioner of Education's letter of March 1974. The commission is staffed by the office of the superintendent of education. The commission has nine members appointed by the governor: two representing the general public, two representing public institutions, one representing private institutions, three representing vocational-technical education and one representing "other interests." The director of the Commission on Higher Education serves on the postsecondary commission.

State Student Assistance and Loan Agencies

A state student assistance program was established in 1975 and is administered by the Alabama Postsecondary 1202 Commission. The state will participate in the federal State Student Incentive Grant program. Alabama does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Council for the Advancement of Private Colleges in Alabama and the Alabama Association of Independent Colleges and Universities serve as state-level organizations representing 19 private colleges and universities within the state.

Licensure/Approval Agencies

The State Department of Education has approval/licensing authority for vocational-technical schools and nondegree-granting proprietary schools. Private degree-granting institutions are not licensed or regulated by the state.

*Alabama Commission on Higher Education

ALASKA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Regents of the University of Alaska, established in 1917, is the governing board for all public higher education in the state. The board is a constitutional body with powers delineated by the state legislature. The Board of Regents is composed of 11 members appointed by the governor and approved by the legislature -- 10 members representing the general public and 1 member representing the student population -- with terms of 8 years, with the exception of the student regent who has a two-year term. The Board of Regents has statutory authority for planning and coordination for all public senior, community colleges and outreach programs. In addition, the board has statutory authority for program control and it recommends a consolidated budget for the entire university system. Alaska does not have an office of secretary of education and the Board of Regents is not a cabinet department. The executive officer of the university system is appointed by the board and serves at its pleasure.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

Information concerning the scope and status of master planning for postsecondary education within Alaska is not available.

1202 Commission

The Alaska Commission on Postsecondary Education was established by statute in 1974. There are 13 members on the commission: 5 are appointed by the governor with the approval of the legislature and 8 are appointed by the governor with the approval of the legislature and 8 are appointed by other means. Of those appointed, five represent the general public, two represent the University of Alaska statewide system and private colleges have one representative. There are two members from the legislature. All representatives serve four-year terms of office. The commission has statutory authority for planning and coordination for all segments of postsecondary education. In addition, the commission has statutory authority to review and recommend budgets and programs for the statewide university system.

State Student Assistance and Loan Agencies

The Alaska Postsecondary Education Commission has statutory responsibility for administering the state's program of assistance to Alaska residents attending private institutions. Alaska does not participate in the federal State Student Incentive Grant program nor does the state have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education. This board has supervisory responsibility for postsecondary vocational education with the community colleges, but these colleges are under the governing authority of the Board of Regents of the University of Alaska.

State-Level Organization of Private Colleges and Universities

Alaska has only two private institutions -- Alaska Methodist University and Sheldon Jackson College. There is no state organization or association of private institutions.

Licensure/Approval Agencies

The State Department of Education has licensure and approval authority for all institutions of postsecondary education in the state.

ARIZONA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

There are two statewide boards in Arizona -- one for the public-supported universities and one for community colleges. The Arizona Board of Regents was created to govern the three universities in 1945. The board is composed of 10 members, 8 appointed by the governor with the consent of the state senate, who serve for eight years, and the governor and state superintendent of public instruction as ex officio members. The Regents have jurisdiction, control and broad general administrative powers as provided by the state constitution and statutes. Its responsibilities include coordination, planning, budget review and approval and program approval as well as other functions. Although the board is not a formal cabinet department, a close coordinating relationship between the governor's office and the major state government department heads is maintained through frequent planning sessions. The executive coordinator of the Board of Regents represents the universities at these meetings.

The State Board of Directors for Community Colleges is the statutory statewide coordinating board for the nine public-supported community college districts. The board is composed of 17 members, 14 appointed by the governor and 3 ex officio members. The board has statutory authority for planning, coordination, budget review and recommendations and program approval for the community colleges. The 14 community college campuses operate under 9 community college district governing boards..

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

There is no total statewide master plan for higher education in Arizona. Planning is a major responsibility of each governing board and the Board of Regents completed revision of its long-range plan in 1974. Plans are coordinated with the executive branch and the legislature but are not approved by them.

1202 Commission

The Commission on Postsecondary Education was created by executive order to assume the planning responsibilities under Section 1202 and 1203 of the Education Amendments of 1972 and to administer other assigned programs. The commission is composed of 14 members appointed by the governor: 4 representative of the general public, 7 representative of public institutions and 1 representative each from private nonprofit institutions, proprietary institutions and vocational-technical institutions.

State Student Assistance and Loan Agencies

Arizona does not have a state student assistance program, participation in the federal State Student Incentive Grant program or a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education serves as the State Board of Vocational Education. In Arizona all less-than-baccalaureate programs are under governing boards for institutions of higher education. However, to the extent that any of these are occupational programs offered by institutions designated as area vocational schools, these programs are under the supervision of the State Board of Education.

State-Level Organization of Private Colleges and Universities

The four small private colleges in Arizona do not have a state-level organization.

Licensure/Approval Agencies

The State Board of Private Technical and Business Schools has approval and licensing authority over vocational-technical and proprietary schools. The board has seven members appointed by the governor and the superintendent of public instruction ex officio. There is no state agency for licensing or approval of private degree-granting academic institutions. State statutes do require that all corporations, whether profit or nonprofit, be registered with, and in compliance with the rules and regulations of, the Arizona Corporation Commission. Legislation has been proposed to require all new degree-granting private, including out-of-state, institutions to be licensed before being permitted to conduct classes or offer programs.

ARIZONA

ARKANSAS

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Department of Higher Education, established in 1971, functions as a statutory cabinet department of state government charged with the coordination of postsecondary education in Arkansas. The department replaced the Commission on Coordination of Higher Educational Finance established in 1962. The State Board of Higher Education, the coordinating board for the department, is composed of 10 members appointed by the governor and confirmed by the state senate; each serves a 10-year term of office. The department has statutory responsibility for planning and coordination for public junior and senior institutions and consideration is given to private and proprietary postsecondary schools within this planning. The department approves all degree-granting institutions and has statutory responsibility for budget review and recommendations and program review and recommendations for the public junior and senior institutions. The executive officer of the agency is nominated by the board, confirmed by the governor and serves at the pleasure of the governor.

Institutional Governing Boards

Arkansas has six governing boards for public senior institutions which are constitutional boards with powers delineated in the constitution. The University of Arkansas board, the Southern State College board and the Arkansas State University board are responsible for more than one campus and the other boards each govern a single institution.

Master Planning

A master plan was adopted in 1972 by the State Board of Higher Education. Plans for its update are being made for the 1976-77 year.

1202 Commission

In April 1974, the Postsecondary Education Planning Commission was created as the 1202 commission by executive order. The 1975 General Assembly confirmed the creation of this commission by legislative act. The commission is the existing State Board of Higher Education, augmented by three members from the general public, one member from public vocational-technical institutions (also from the State Board of Education) and one representative of proprietary institutions.

State Student Assistance and Loan Agencies

The Department of Higher Education administers the state scholarship program and Arkansas participates in the federal State Student Incentive Grant program. In addition, Arkansas has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education serves as the State Board of Vocational Education. A number of postsecondary vocational-technical institutions operate within the jurisdiction of the State Board of Education.

State-Level Organization of Private Colleges and Universities

The Arkansas Council of Independent Colleges and Universities serves as the state-level organization for 12 private colleges and universities.

Licensure/Approval Agencies

The Department of Higher Education has licensing and approval power over private degree-granting institutions and proprietary degree-granting institutions. The State Department of Education has licensing and approval authority over vocational-technical schools and nondegree-granting proprietary schools.

CALIFORNIA

Part I: State Structure

State-Level Coordinating and/or Governing Agency

On April 1, 1974, the California Postsecondary Education Commission assumed the duties, staff and budget of the Coordinating Council for Higher Education. The commission functions as a coordinating agency with statutory powers over postsecondary education in the state. The commission is composed of 23 members, 6 appointed by the governor and 17 appointed by others. Of those appointed, 12 are from the general public, 6 represent public institutions, 2 each represent private institutions and vocational-technical education and 1 represents proprietary institutions. The commission has statutory responsibility for planning and coordination of all segments of postsecondary education in the state. In addition, the commission has statutory authority to review individual institutional budgets, to make budget recommendations and to review and recommend programs. California does not have a state office of secretary of education and the commission is not a cabinet department. The executive officer is appointed by the commission and serves at the commission's pleasure.

Institutional Governing Boards

Institutional governing boards in the state include: (1) the Board of Regents of the University of California, exercising constitutional powers over 9 public senior colleges; (2) the Board of Trustees of California State University and Colleges, exercising statutory powers over 19 public senior colleges; and, (3) the Board of Governors of California Community Colleges, a supervisory body with statutory authority over 103 public junior colleges.

Master Planning

The 1973 California legislature charged the Postsecondary Education Commission with a number of significant new responsibilities relating to planning and coordination of all segments of postsecondary education. By statute, the commission is charged with preparation of a five-year state plan for postsecondary education, which is to be updated annually. The first such plan was adopted by the commission in December 1975.

1202 Commission

The Postsecondary Education Commission has been designated by statute as the 1202 commission for the state.

State Student Assistance and Loan Agencies

The California Student Aid Commission administers student grant and scholarship programs and California participates in the federal State Student Incentive Grant program. California does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

In California the State Board of Education is the State Board of Vocational Education. All the less-than-baccalaureate occupational programs, including the area vocational schools designated as "postsecondary," are in institutions clearly within the planning and coordinating jurisdiction of the Postsecondary Education Commission. In California, there is a degree of sharing of responsibility with the State Board of Education if only to the extent that, under the federal vocational education act "area vocational schools" must be under the supervision of the designated state board of vocational education.

State-Level Organization of Private Colleges and Universities

The Association of Independent California Colleges and Universities represents 57 private colleges and universities in the state.

Licensure/Approval Agencies

The Bureau of School Approvals has approval and licensing authority for private degree-granting institutions, nondegree-granting proprietary schools and vocational-technical schools within the state.

*California Postsecondary Education Commission

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Commission on Higher Education is the statutory agency for planning and coordination of higher education in Colorado. The commission was established in 1965 and its responsibilities were amended in 1970. The commission consists of nine public members appointed by the governor with the consent of the senate, each with four-year terms. Among its responsibilities are (1) to review individual institutional budgets and make a consolidated recommendation to the governor and legislature; (2) to review and approve new program proposals, review and recommend to governing boards and legislature existing and proposed nondegree programs, to recommend to governing boards programs to be eliminated or consolidated and to develop a unified program of extension offerings; (3) to recommend to the governor and legislature sites for and establishment of new public institutions; (4) to prescribe uniform standards for development of capital construction programs, review and approve program plans for capital construction projects and recommend capital construction priorities to the legislature, state budget office and governor; (5) to recommend to governing boards roles and functions of public institutions; (6) to make statistical and other higher education studies; and (7) to seek cooperation and advice of public and private institutions in the state.

There is a statutory advisory committee to the commission composed of 14 members, 9 of whom represent the legislature and the 6 governing boards of the public institutions. The other five members are appointed by the commission and include the commissioner of education, representatives of the private sector and proprietary schools and a student representative. The commission serves as a statutory cabinet-level department of higher education and the executive director is appointed by the commission and serves at its pleasure.

Institutional Governing Boards

The State Board for Community Colleges and Occupational Education is the statewide governing body for seven state community colleges. The board has responsibility for planning for community colleges and for occupational education, including area vocational schools, which planning is well coordinated with the Commission on Higher Education's planning. There are five other public institutional governing boards: The Board of Agriculture which is responsible for Colorado State University and Fort Lewis College, the Board of Regents of the University of Colorado with three senior institutions and a medical center, the Board of Trustees of the Colorado School of Mines, the Trustees of the State Colleges in Colorado with authority over five senior public colleges and the Board of Trustees of the University of Northern Colorado. The University of Colorado Medical Center participates with other state health planning agencies in planning related to health professions and occupations.

Master Planning

The Commission on Higher Education has responsibility to develop and maintain a comprehensive plan for public higher education in Colorado in consideration of the needs of the state, the role of individual public and private institutions and the state's ability to support higher education. In fulfillment of this responsibility, the commission initiated in the summer of 1974 an update of the 1971 report, Planning for the 1970s -- Higher Education in Colorado. A final report of this activity is in process.

1202 Commission

No 1202 commission has been designated in Colorado.

State Student Assistance and Loan Agencies

The Commission on Higher Education by law administers the Colorado work-study program and other state programs of assistance provided by legislative appropriations to students attending public institutions. The state participates in the federal State Student Incentive Grant program. The state does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board for Community Colleges and Occupational Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The five regionally accredited private colleges and universities in the state do not have a state-level organization.

Licensure/Approval Agencies

The State Department of Education administers the statute applying to the awarding of degrees by private institutions. No approval or licensing authority is conveyed by the law. The State Board for Community Colleges and Occupational Education is the approval agency for private vocational schools.

*Colorado Commission on Higher Education

CONNECTICUT

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Commission for Higher Education, established in 1965, functions as a statutory coordinating agency. The commission consists of 18 members, 12 appointed by the governor and 5 appointed by "other means." One member serves ex officio and the governor's appointees serve eight-year terms of office while other members serve four-year terms of office. The commission is charged with the responsibility for planning and coordination of all postsecondary education within the state, budget review for individual public institutions and recommendation of a consolidated budget and program approval for public degree-granting institutions. The commission is not a cabinet department and the executive officer is appointed by the board and serves at the board's pleasure.

Institutional Governing Boards

There are five statutory governing boards in Connecticut: (1) the Board of Trustees of the University of Connecticut System responsible for the state's land-grant university, medical center and 5 branch campuses; (2) the Board of Trustees of State Colleges responsible for 4 senior state colleges; (3) the Board of Trustees of the Regional Community Colleges responsible for 12 public junior colleges; (4) the Board of Trustees of State Technical Colleges responsible for 5 two-year institutions; and (5) the Board for State Academic Awards, a nonteaching institution, which is empowered to provide counseling, certify credits and grant degrees.

Master Planning

The Commission for Higher Education has completed its first biennial update of the 1974-79 master plan and a report on the update was presented to the governor and legislature in January 1976.

1202 Commission

The Commission for Higher Education has been designated by statute as the state's 1202 agency. Of the commission's 18 members, 11 represent the general public; 2 the public four-year institutions; and the public community colleges, vocational-education institutions and private nonprofit institutions each has 1 representative. One member, the commissioner of education, represents the state's proprietary institutions as well as public vocational schools.

State Student Assistance and Loan Agencies

The State Scholarship Commission, staffed by the Commission for Higher Education, serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education serves as the State Board of Vocational Education. The chief executive officer of the Commission for Higher Education serves as an ex officio member without vote. The board also has responsibility for special education, vocational and adult education. Some of these interests fall within the coordination and planning jurisdiction of the Commission for Higher Education and some sharing of responsibility for less-than-baccalaureate programs.

State-Level Organization of Private Colleges and Universities

The Connecticut Conference of Independent Colleges serves as the state-level organization for 19 private colleges and universities within the state.

Licensure/Approval Agencies

The Commission for Higher Education has approval and licensing authority for private degree-granting institutions, vocational-technical schools and proprietary schools, as well as public institutions.

DELAWARE

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The state of Delaware does not have a constitutional or statutory statewide agency for higher education.

Institutional Governing Boards

There are three institutional governing boards in the state: (1) the Board of Trustees of the University of Delaware, with statutory responsibility for one public senior college; (2) the Board of Trustees of Delaware State College, with constitutional authority for one public senior college; and (3) the Board of Trustees of Delaware Technical and Community Colleges, with statutory authority over four public junior colleges.

Master Planning

As noted below, the 1202 commission conducts planning for all postsecondary education in Delaware. No master plan has as yet been developed.

1202 Commission

The Delaware Postsecondary Education Commission, established by executive order in 1974, serves as the 1202 commission in the states. The commission consists of 12 members appointed by the governor, 6 representing the general public, 3 representing public institutions and 1 each representing private, vocational-technical institutions and proprietary institutions. The commission is not a cabinet department and the executive officer is appointed by the governor and serves at the governor's pleasure. The commission conducts planning as a matter of policy for all public senior and junior colleges, public vocational-technical schools and private institutions.

State Student Assistance and Loan Agencies

The Division of Federal Regulations and Scholarships within the Department of Public Instruction serves as the state student aid agency and Delaware participates in the federal State Student Incentive Grant program. Delaware has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education serves as the State Board of Vocational Education. In Delaware all less-than-baccalaureate occupational education programs are supervised by the postsecondary governing boards and no such programs appear to be under the State Board of Education. To the extent that any of the less-than-baccalaureate programs are offered by institutions designated as area vocational schools, these institutions are under the supervision of the state board and to this extent, responsibility is divided between the governing board and the State Board of Education.

State-Level Organization for Private Colleges and Universities

Delaware does not have a state-level organization for private institutions within the state.

Licensure/Approval Agencies

The State Department of Public Instruction serves as approval authority for all private degree-granting institutions and vocational-technical institutions. Proprietary schools (nondegree-granting) are approved by the State Board of Education through the Department of Public Instruction.

*Delaware Postsecondary Education Commission

DISTRICT OF COLUMBIA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

At the present time, there is no single statutory governing or coordinating agency in the District of Columbia. Two governing boards, established by Congress, are responsible for the three public institutions of higher education -- the Board of Higher Education for the D.C. Teachers College and Federal City College, and the Board of Vocational Education for the Washington Technical Institute. The nine members of the Board of Higher Education are appointed by the D.C. mayor and serve three-year terms. The nine members of the Board of Vocational Education are appointed by the President and serve one- to three-year terms. The district does not have a designated office of secretary of education and the two governing boards do not serve as cabinet departments. However, this situation is due to change in the imminent future.

The D.C. Public Postsecondary Reorganization Act, passed by Congress in 1974, and amendments thereto passed by the D.C. City Council in November 1975, provide for the establishment of the University of the District of Columbia as a land-grant institution from a consolidation of the three existing public institutions. The bill provides for the appointment of a 15-member board of trustees which will consolidate the existing programs into the university effective September 1, 1976. Nominations for the 11 public memberships on the board have been made by the mayor and await city council confirmation; nominations to the remaining memberships (3 alumni and 1 student) are in process. The Board of Higher Education and the Board of Vocational Education will go out of existence on the date of the first meeting of the Board of Trustees.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

No information on the status of master planning in the District of Columbia is available.

1202 Commission

The Commission on Postsecondary Education, established in 1974 by order of the District of Columbia mayor, is the district's 1202 commission and replaced the Commission on Academic Facilities. The commission has 24 members appointed by the mayor for terms of one to three years and consists of 6 representatives of the general public, 3 of public four-year institutions, 9 representing private nonprofit institutions, 2 from proprietary institutions, 2 students and 1 representative each from the city council, the district government and public schools. As a matter of policy the commission conducts planning and coordination for all segments of postsecondary education in the district -- public and private -- and with voluntary participation of junior and senior institutions, conducts program review. The executive officer of the commission is appointed by the mayor and serves at his/her pleasure.

State Student Assistance and Loan Agencies

The Government of the District of Columbia Department of Human Resources serves as the state student assistance agency and the district will participate in the federal State Student Incentive Grant program for 1975-76. The district has a guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

In addition to the Board of Vocational Education (governing board for the public technical institute), the State Board of Education serves as the State Board of Vocational Education, with the D.C. Advisory Council on Vocational Education acting in an advisory capacity.

State-Level Organization of Private Colleges and Universities

The district does not have a district-wide organization for the 15 private institutions.

Licensure/Approval Agencies

The Board of Higher Education has approval and licensing authority for private degree-granting institutions in the District of Columbia. However, this authority will not be transferred to the new Board of Trustees, such being specifically prohibited by the congressional and city council legislation. The Department of Economic Development has approval authority for vocational-technical and proprietary institutions.

FLORIDA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The chief policy-making and governing body for public education in Florida is the State Board of Education. The board is composed of seven persons each of whom serves in an ex officio capacity by virtue of the elected office he or she holds -- the governor, secretary of state, state treasurer, attorney general, commissioner of agriculture, state comptroller and commissioner of education -- and has constitutionally defined legal status. The board serves as a single governing board for all public education in the state and was established in 1885, with amendments to its structure and responsibilities in 1968. The State Board of Education has statutory responsibility for reviewing individual institutional budgets, general budgetary review and making consolidated budget recommendations for all public senior and junior institutions.

Institutional Governing Boards

Under the jurisdiction of the State Board of Education are the Board of Regents of the State University System and the Division of Community Colleges. The Board of Regents of the State University System was established in 1965, amended in 1969 and 1971 and governs the nine public senior institutions under statutory authority. Members of the board are appointed by the governor with the approval of three cabinet members and consent of the senate. All nine members are representative of the general public. The board has statutory responsibility for planning, institutional budget review and consolidated budget recommendations and program approval for all public senior institutions. The executive officer of the board is appointed by the board and serves at the board's pleasure. The Division of Community Colleges has statutory responsibility for planning, institutional budget review and consolidated budget recommendations and program approval for all 28 public community colleges in the state.

1202 Commission

The State Planning Council for Post-High School Education under the State Board of Education has been designated by executive order as the 1202 commission. The council consists of 11 members -- 3 representing the general public; 1 member each representing public four-year institutions, public community and junior colleges, public technical-vocational institutions, private nonprofit institutions and proprietary institutions; and 3 representing other interests.

State Student Assistance and Loan Agencies

The state student assistance agency administers state programs under the State Department of Education. Florida participates in the federal State Student Incentive Grant program and has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board for Vocational Education.

State-Level Organization of Private Colleges and Universities

The Independent Colleges and Universities of Florida, Inc., serves as the state organization for 17 independent accredited colleges and universities within the state.

Licensure/Approval Agencies

The Board of Independent Colleges and Universities within the State Department of Education has approval and licensing authority for private degree-granting institutions. The Board of Postsecondary Vocational, Technical and Trade Schools has approval authority for all vocational-technical schools and proprietary schools within the state.

GEORGIA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Regents of the University System of Georgia functions as the single governing board for all public higher education in the state. The board was established in 1931 and the structure and/or responsibility of the board has not been amended since. The regents consist of 15 members appointed by the governor with the consent of the senate. All members represent the general public and serve seven-year terms of office. The board has statutory responsibility for planning and coordination, institutional budget review including recommendations for a consolidated budget and program approval over 16 public junior, 12 senior colleges and 4 university-level institutions. Georgia does not have a state office of secretary of education and the regents do not function as a cabinet department. The executive officer of the board is appointed by and serves at the pleasure of the board.

Institutional Governing Boards

See State-Level Governing Agency above.

Master Planning

Information concerning the extent and scope of master planning for all postsecondary education in the state was not available.

1202 Commission

The Georgia Postsecondary Education Commission has been designated by the governor as the 1202 commission in the state. The commission has 17 members, all appointed by the governor. Five members represent the general public, three represent public institutions, two represent private institutions, one represents proprietary institutions and three each represent vocational-technical education and a category labeled "other."

State Student Assistance and Loan Agencies

The Georgia State Scholarship Commission serves as the state student aid agency and Georgia participates in the federal State Student Incentive Grant program. There is a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education serves as the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Association of Private Colleges and Universities in Georgia serves as a state organization for 25 private colleges and universities in the state.

Licensure/Approval Agencies

The State Department of Education serves as the licensing and approval agency for private degree-granting institutions and vocational-technical programs. Proprietary schools are licensed and approved by the standards section of the department.

PART IV: PLANNED RESEARCH STUDIES AND PUBLICATIONS

Research or issue studies underway or expected to be completed from September 1975 to September 1976.

Information on current research studies was not available from Georgia.

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The state of Hawaii has three boards of overlapping memberships responsible for coordinating and governing higher education. The Board of Regents of the University of Hawaii, established in 1907, serves as the constitutional governing board for the University of Hawaii system which consists of a subsystem of seven community colleges, a complex university campus and two baccalaureate-granting campuses. The 11-member board is appointed by the governor to four-year staggered terms, not to exceed two terms. The board has statutory authority in all areas of system policy, budgeting, programming, evaluating and governance. Hawaii does not have a state office of secretary of education and the Board of Regents is not a cabinet department. The executive officer of the board is appointed by the board and serves at the board's pleasure.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

Information concerning the extent and scope of master planning was not available.

1202 Commission

The members of the Board of Regents, supplemented by four other members, statutorily constitute the State Postsecondary Education (1202) Commission.

State Student Assistance and Loan Agencies

The Board of Regents of the University of Hawaii serves as the student assistance agency. The state does not participate in the federal State Student Incentive Grant program. Hawaii has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The Board of Regents serves also as the members of the State Board for Vocational Education with the basic responsibility for planning, coordinating and evaluating public vocational education programs at the secondary and postsecondary levels and for requesting and allocating federal funds within the state.

State-Level Organization of Private Colleges and Universities

Hawaii does not have a state-level organization for private colleges and universities.

Licensure/Approval Agencies

The State Department of Regulatory Agencies has licensing and approval authority for private degree-granting institutions. Approval authority for proprietary vocational and technical schools falls under the authority of the State Department of Education

PART II: DESCRIPTIVE STATISTICS[1]

State Population (1974 estimate): 847,000

% of State Population Urban/Rural (1970): 83.1/16.9

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The State Board of Education serves as a single constitutional board for all public education including elementary, secondary and postsecondary education. Established in 1890 the board's structure and responsibilities were amended in 1974. The board consists of eight members, seven of which are appointed by the governor with the consent of the senate and one member is elected by the public. All eight members are representative of the general public and serve five-year terms of office. The board has constitutional authority for two public junior colleges, four public senior colleges and one vocational institution. The State Board of Education has statutory responsibility in the areas of planning and coordination for all senior, junior and vocational-technical public institutions, and conducts planning and coordination as a matter of policy for all private and proprietary institutions (as a 1202 commission). The board has statutory responsibility for the budget review and consolidated budget recommendations for all public senior colleges. In addition, the board has responsibility for institutional budget review and recommendations for public junior colleges. The agency has statutory responsibility for program approval of senior public institutions and program review and recommendations as a matter of policy for all public junior institutions.

Idaho does not have a state office of secretary of education and the board does not function as a cabinet department. Responsibilities of the board related to higher education are carried out through the Office of Higher Education headed by the executive director for higher education who is appointed by and serves at the pleasure of the board and who reports directly to the board.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Boards above.

Master Planning

Information concerning the scope and extent of master planning for all postsecondary education within the state was not available.

1202 Commission

The State Board of Education has been designated by the governor as the 1202 commission.

State Student Assistance and Loan Agencies

The State Board of Education functions as the student assistance agency and Idaho participates in the federal State Student Incentive Grant program. The state does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

Idaho does not have a state-level organization for private colleges and universities.

Licensure/Approval Agencies

The State Department of Education functions as the licensing and approval agency for vocational-technical and proprietary schools. No approval agency exists for private degree-granting institutions.

ILLINOIS

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Higher Education functions as a statutory coordinating board for all postsecondary education within the state. The board was established in 1957 and its structure and responsibilities were amended in 1961, 1965, 1967 and 1973. The board consists of 16 members: 10 public members appointed by the governor with the consent of the senate, 5 members representing public institutions, governing and coordinating boards and a member representing students. All public members serve six-year terms of office. The board has statutory responsibility for planning and coordination of all public universities, community colleges and private institutions. In addition, the agency conducts planning and coordination as a matter of policy for public vocational-technical and proprietary institutions. The board has statutory responsibility for program approval, individual institutional budget review and consolidated budget recommendations for all public senior and junior institutions. Illinois does not have a secretary of education and the coordinating agency does not serve as a cabinet department. The executive officer of the board is appointed by the board and serves at the pleasure of the board.

Institutional Governing Boards

The Illinois Community College Board serves as the coordinating board for 43 public junior colleges in the state. The board operates within the planning and coordinating responsibility of the Board of Higher Education. There are four governing boards for public senior institutions in the state: (1) the Board of Governors of State Colleges and Universities with statutory authority over five universities, (2) the Board of Regents of Regency Universities with statutory authority over three universities, (3) the Board of Trustees of Southern Illinois University with statutory responsibility for two public senior universities and (4) the Board of Trustees of the University of Illinois with statutory responsibility for three campuses.

Master Planning

In November 1973 the Board of Higher Education began discussions concerning the need to revise the state master plan for postsecondary education. In 1974 the board approved a list of topics to be studied in the master plan revision process and a procedural plan was adopted. This master plan revision reflects the board's expanded efforts as a 1202 commission.

1202 Commission

The Board of Higher Education has been designated by the governor as the 1202 commission for the state. The board's membership was not augmented when it became a 1202 commission.

State Student Assistance and Loan Agencies

The Illinois State Scholarship Commission serves as the state student assistance agency and Illinois participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education functions as the State Board of Vocational Education. A joint board committee composed of members of the State Board of Education and the Board of Higher Education has been established as a means for the two boards to consider matters of common concern.

State-Level Organization of Private Colleges and Universities

The Federation of Independent Illinois Colleges and Universities serves as the state-level organization for 51 private institutions.

Licensure/Approval Agencies

The State Board of Education and the Department of Registration and Education serves as the approval and licensing agency for all postsecondary institutions including proprietary schools.

INDIANA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Commission for Higher Education, established in 1971, functions as the statutory coordinating agency for all postsecondary education in the state. The commission has 12 members, representing the general public and appointed by the governor for terms of four years. The commission is charged by statute with three responsibilities: (1) long-range planning for postsecondary education in Indiana, (2) approval of new program requests and (3) review of budget requests and the recommendation to the executive and legislative branches of state government. Indiana does not have an office of secretary of education and the coordinating agency is not a cabinet department. The executive officer of the commission is appointed by the commission and serves at its pleasure. During 1974-75, the commission developed a staff and increased its liaison efforts with the legislature.

Institutional Governing Boards

Indiana has 6 public institutional governing boards: (1) Ball State University Board of Trustees with authority over 1 public senior college; (2) Indiana State University Board of Trustees, the board for 2 campuses; (3) Indiana Vocational-Technical College Board of Trustees, with authority over 13 vocational institutions in the state; (4) the Board of Trustees of Indiana University for 8 campuses; (5) the Board of Trustees of Purdue University for 4 campuses; and (6) the Trustees of Vincennes University, responsible for a single public junior college.

Master Planning

Specific problem areas identified by the commission for study include (1) the relationship between the public and private sectors of postsecondary education, (2) the governing structure of public postsecondary education, (3) the entire area of vocational-technical education, (4) tuition and fees and (5) health education. Further information concerning the scope and mission of master planning in Indiana is not available.

1202 Commission

The Commission for Higher Education has been designated by the governor as the 1202 commission and its membership was not augmented.

State Student Assistance and Loan Agencies

The State Scholarship Commission of Indiana serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. Indiana does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Vocational-Technical Education is the State Board for Vocational Education. Members are appointed as follows: (1) the state superintendent of public instruction (ex officio), (2) the executive officer of the Commission for Higher Education (ex officio), (3) a member of the State Board of Education, (4) a Commission for Higher Education member, (5) a member of a governing board of a secondary vocational institution, (6) a member of a governing board of a postsecondary vocational institution, and (7) one member each representing secondary vocational administration, postsecondary vocational administration, labor, business and agriculture. The commissioner of higher education and the superintendent of public instruction alternate each year as chairman.

State-Level Organization of Private Colleges and Universities

The Independent Colleges and Universities of Indiana, Inc., serves as the organization for 32 private colleges and universities within the state.

Licensure/Approval Agencies

The Private School Accrediting Commission functions as the statutory licensing and approval authority for proprietary. The law is vague as to accrediting, licensing or approval of private degree-granting institutions not accredited by a regional accrediting association.

PART II: DESCRIPTIVE STATISTICS[1]

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The State Board of Regents, established in 1909, serves as the statutory governing body for all public senior higher education in the state. The board is composed of nine members appointed by the governor with the consent of the senate, all representing the general public and serving six-year terms. The board has statutory governing authority for three public senior colleges, including program approval, planning and coordination and review of institutional budgets, including recommendations for a consolidated budget. Postsecondary area schools and community colleges are under the jurisdiction of the State Board of Public Instruction. However, the regents have statutory responsibility to approve annually, jointly with the state board, the postsecondary area schools and community colleges in order for them to receive state aid. The regents also play a role in the review and recommendations regarding the state budgets for area schools and community colleges.

Iowa does not have an office of secretary of education and the agency is not a cabinet department within the state. The executive officer of the Board of Regents is appointed by the board and serves at the pleasure of the board. The Iowa Coordinating Council for Post-High School Education serves as a voluntary statewide organization for all postsecondary education, including all accredited public area schools and community colleges, the private colleges and universities, the public universities and the private specialized and proprietary institutions.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

Information concerning the scope of master planning for all postsecondary education within the state is not available.

1202 Commission

The Higher Education Facilities Commission has been designated by executive order as the 1202 commission in the state. The commission has nine members -- three representing the general public, two representing vocational-technical institutions and one representative each from public four-year colleges and private nonprofit institutions. Two members, one from each house, represent the state legislature.

State Student Assistance and Loan Agencies

The Higher Education Facilities Commission serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. Iowa does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Public Instruction functions as the State Board of Vocational Education and exercises statutory authority over 11 public junior colleges and 4 vocational-technical institutions.

State-Level Organization of Private Colleges and Universities

The Iowa Association of Private Colleges and Universities serves as the state-level organization for 29 private colleges and universities.

Licensure/Approval Agencies

No approval and licensing agency exists for private degree-granting institutions and vocational-technical institutions. The State Department of Public Instruction has approval and licensing authority for proprietary nondegree-granting institutions.

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The State Board of Regents, established in 1925, functions as the constitutional governing agency for six public senior colleges in the state. The structure and responsibilities of the agency were amended in 1966, 1970 and 1975. The nine members of the board are appointed by the governor with the consent of the senate, represent the general public and serve four-year terms of office. Community colleges are under individual governing boards that are supervised by the State Board of Education. The Kansas Technical Institute and designated postsecondary area vocational schools which are not community colleges relate to the State Board of Education. There is one municipal university.

The Board of Regents has statutory responsibility for planning and coordination, institutional budget review including consolidated budget recommendations and program approval for all state senior institutions. The agency does not serve as a cabinet department and the office of secretary of education does not exist at the state level. The executive officer of the Board of Regents is appointed by the board and serves at the board's pleasure. Kansas has issued a report, A Review and Analysis of Undergraduate Programs At the State Colleges and Universities, which identifies the multiple responsibilities of institutions of higher education, describes existing innovative programs and provides statistical data and rationale for existing programs.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

The 1202 Commission has the responsibility for the statewide postsecondary planning. Master planning for the state colleges and universities governed by the regents is accomplished through a small professional staff working with committees of representatives from each of the six institutions. This approach to systemwide planning was formalized in 1969 when, with the approval of the regents, the presidents of the six colleges and universities established the Council of Chief Academic Officers and charged this group with the review of programs at the six institutions and the development of a more efficient and effective regents' system in Kansas. The report Guidelines for Increasing Academic Efficiency at the State Colleges and Universities, was issued in 1972 and included recommendations for academic master planning that are in the process of being implemented.

1202 Commission

The Legislative Educational Planning Committee, a committee of the state legislature, has been designated by the governor as the 1202 commission. The committee consists of 11 members: 5 members from the senate and 6 from the house.

State Student Assistance and Loan Agencies

The Board of Regents serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The Kansas Tuition Grant Program provides grants to approximately one-third of all private college students in the state. Kansas does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education serves as the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Associated Independent Colleges of Kansas serves as the statewide organization representing 20 private colleges and universities.

Licensure/Approval Agencies

The State Department of Education has approval authority over all private, vocational-technical and proprietary institutions in the state.

KENTUCKY

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Council on Public Higher Education, established in 1934 and amended in structure and function in 1966 and 1972, functions as a statutory coordinating agency for the state. The council consists of 19 members serving four-year terms of office. Of the 19 members 10 members, representative of the general public, are appointed by the governor. Nine members serve in an ex officio capacity: eight institutional presidents without a vote and the State Superintendent of Public Instruction with a vote. The council has statutory authority for planning and coordination, institutional budget review, consolidated budget recommendations and approval of public graduate and professional programs and public junior institution programs. The state does not have an office of secretary of education and the agency does not function as a cabinet department. The executive officer of the council is appointed by the council and serves at the council's pleasure.

Institutional Governing Boards

There are eight institutional governing boards in Kentucky. The Board of Trustees of the University of Kentucky governs 13 community colleges and 1 public senior institution. Each of the other seven boards governs a single institution: the Board of Trustees of the University of Louisville, the Board of Regents of Eastern Kentucky University, the Board of Regents of Kentucky State University, the Board of Regents of Morehead State University, the Board of Regents of Murray State University, the Board of Regents of Northern Kentucky State College and the Board of Regents of Western Kentucky University.

Master Planning

The focal effort of the Council on Public Higher Education during 1974-75 was to move toward the development of a comprehensive long-range state plan for higher education. Several task groups were established to study the various components of the plan, identify needs, provide alternatives and make recommendations. The schedule for completion is predicated on the mandate by the legislature that it be presented to the 1976 session.

1202 Commission

The State Commission for Postsecondary Education, designated by the governor, consists of 15 members: the executive director of the Council on Public Higher Education, the vice president for community colleges of the University of Kentucky, the state superintendent of public instruction, the assistant superintendent of the bureau of vocational education, the chairman of the State Board of Education, the chairman of the State Advisory Council for Vocational Education and Manpower Training and Development, and the commissioner of the Bureau of Manpower Services, Department for Human Resources, all ex officio. One member represents the state colleges and universities, one the Council of Independent Kentucky Colleges and Universities, one representing proprietary schools, and five members representative of labor, business, industry and the general public.

State Student Assistance and Loan Agencies

The Higher Education Assistance Authority functions as the state student assistance agency and Kentucky participates in the federal State Student Incentive Grant program. The state does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Council of Independent Kentucky Colleges and Universities serves as the state-level organization of 20 private colleges and universities.

Licensure/Approval Agencies

The Council on Public Higher Education has the Authority for licensing and approval of private degree-granting institutions. The State Department of Education has licensing and approval authority for vocational-technical schools and proprietary institutions.

*Council on Public Higher Education

LOUISIANA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Regents, created in 1974 as the successor to the Louisiana coordinating council, serves as the constitutional statewide coordinating agency for postsecondary education. The board consists of 15 members appointed by the governor with the consent of the senate. All 15 members represent the general public and serve six-year terms of office. The board has constitutional authority for planning and coordination for all public senior and junior institutions of higher education and constitutional responsibility for institutional budget review, recommending a consolidated budget and program approval for public senior and junior institutions. Proposed and existing degree programs are subject to board approval. The state does not have an office of secretary of education and the agency does not serve as a cabinet department. The executive officer of the board is appointed by the board and serves at the board's pleasure.

Institutional Governing Boards

Three institutional governing boards exist in the state which were created by the 1974 constitution. Each board has 18 members appointed by the governor with the consent of the senate (17 representatives from the general public and 1 student member). The three governing boards are: (1) the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College, governing two public junior colleges, three public senior colleges and a medical center; (2) the Board of Supervisors of Southern University and Agricultural and Mechanical College, responsible for one public junior college and two public senior institutions; and (3) the Board of Trustees for State Colleges and Universities governing eight public senior institutions and one public junior college.

Master Planning

During 1976 the Board of Regents plans to direct its energies toward the development of a comprehensive state plan for higher education during the remainder of the seventies. Part of the state planning endeavor entails the development of a data base sufficient to support the necessary decision making.

1202 Commission

The Board of Regents has been designated by the governor as the 1202 commission.

State Student Assistance and Loan Agencies

The Higher Education Assistance Commission serves as the state student assistance agency and Louisiana participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Elementary and Secondary Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Association of Independent Colleges and Universities of Louisiana serves as the state-level organization for 8 private colleges and universities.

Licensure/Approval Agencies

The State Board of Elementary and Secondary Education functions as the approval agency for vocational-technical and proprietary schools. No agency serves as the approval and licensing authority for private degree-granting institutions.

MAINE

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Trustees of the University of Maine, established in 1968, is the principal statutory governing agency for public postsecondary education in the state. The board consists of 15 members -- 14 appointed by the governor for 7-year terms and the commissioner of educational and cultural services who serves in an ex officio capacity. The Board of Trustees has statutory responsibility for planning and coordination, institutional budget review and consolidated budget recommendations and program approval for all campuses of the university. Maine does not have an office of secretary of education and the board does not serve as a cabinet department. The executive officer of the board is appointed by the board and serves at the pleasure of the board. Two other institutional governing agencies exist within the state: the Board of Trustees of Maine Maritime Academy responsible for one public senior institution and the State Board of Education responsible for six vocational-technical institutes.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

Information is not available concerning the scope of master planning within the state.

1202 Commission

The Postsecondary Education Commission, the 1202 Commission, is a statutory agency established in 1975 and is responsible for statewide planning for postsecondary education. The commission consists of 16 members appointed by the governor with 4 representing the general public, 6 representing public boards and advisory councils, 3 representing private institutions and a single member representing proprietary education. The chancellor of the university and the commissioner of educational and cultural services serve as ex officio members.

State Student Assistance and Loan Agencies

The State Department of Educational and Cultural Services serves as the state agency for student assistance and Maine participates in the federal State Student Incentive Grant program for private institutions. Maine has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

Maine does not have a state-level organization for private colleges and universities, although all public, private and proprietary institutions are members of the Higher Education Council.

Licensure/Approval Agencies

The State Department of Educational and Cultural Services is responsible for recommending to the legislature approval of degree-granting authority for postsecondary education institutions.

MARYLAND

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Council for Higher Education, established in 1964 and amended five times since that date, serves as the statutory coordinating agency for postsecondary education in the state. Legislation has been proposed in 1976 which may replace the council with a state board for higher education. The present council consists of 13 members, all appointed by the governor with the consent of the senate and all serving six-year terms. Of those currently appointed, eight represent the general public, three represent public institutions and private and proprietary institutions are represented by one member each. The council has statutory responsibility for planning and coordination for all postsecondary institutions in the state -- public junior and senior, vocational-technical, private and proprietary. In addition, the council has statutory responsibility for program review and recommendations related to public senior and junior institutions. The executive officer is appointed by the council and serves at the pleasure of the council.

Institutional Governing Boards

The state system of public higher education consists of three major segments. The Board of Regents of the University of Maryland governs the branches of the university. The Board of Trustees of the State Colleges governs five public senior colleges. The State Board for Community Colleges serves as a statutory coordinating agency for 17 community colleges that are governed by local boards. Additionally, St. Mary's College and Morgan State University, both senior public institutions, are governed by their own boards of trustees.

Master Planning

The Council for Higher Education coordinates the efforts of the segments of higher education in developing the postsecondary education portion of the executive master plan for all public services within the state.

1202 Commission

The Council for Higher Education has been designated by statute as the state's 1202 commission.

State Student Assistance and Loan Agencies

The State Scholarship Board and the Higher Education Loan Corporation are the state agencies for student assistance. Maryland participates in the federal State Student Incentive Grant program and the state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Maryland Independent College and University Association serves as the organization for 17 private colleges and universities in the state.

Licensure/Approval Agencies

The State Department of Education has licensing and approval authority for all institutions of postsecondary education.

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Higher Education is the statutory coordinating agency for all postsecondary education in Massachusetts and was established in 1965 as part of an overall reorganization of the state's higher education structure. The board's scope and responsibilities have been amended three times since 1965. There are 12 board members, 7 of whom are appointed by the governor for terms of 5 years, with the remaining 5 members elected annually by the governing boards of the public higher education segments. The board has statutory or contractual responsibilities for overall planning and coordination for public and private postsecondary education, program review and approval authority for the public sector and review and recommendation of operating and capital budgets for all higher education which are forwarded to the governor and legislature.

An Executive Office of Educational Affairs, created in 1971, is headed by a secretary appointed by the governor who serves as his chief political advisor on educational matters. The executive officer of the Board of Higher Education is appointed by the board and serves at the pleasure of the board. The board, through its chancellor, seeks to work with all state and private agencies and groups interested in postsecondary education in order to better carry out its role as the statewide coordinating agency.

Institutional Governing Boards

There are 5 governing boards responsible for the public higher education sectors: (1) Board of Regional Community Colleges (15 campuses), (2) Board of Trustees of the University of Massachusetts (3 campuses), (3) Board of Trustees of University of Lowell, (4) Board of Trustees of Southeastern Massachusetts University and (5) Board of Trustees of State Colleges (10 campuses).

Master Planning

The Board of Higher Education has statutory responsibility for overall planning and coordination of public and private postsecondary education. Further information on master planning in Massachusetts is not available.

1202 Commission

The 1202 commission, designated by the governor, was created as advisory to the secretary of educational affairs and is staffed by the Board of Higher Education. Commission membership includes the seven gubernatorial appointees of the Board of Higher Education augmented by eight representatives of public and private higher education institutions.

State Student Assistance and Loan Agencies

The Board of Higher Education administers the state sponsored scholarship program, the administration of the police incentive pay program and serves as the state veterans approving agency under contract with the Veteran's Administration. The state participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program which is administered by Higher Education Assistance Corporation.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Association of Independent Colleges and Universities in Massachusetts serves as the state-level organization for 57 private colleges and universities.

Licensure/Approval Agencies

The Board of Higher Education has authority over awarding of degrees and approval of charter amendments for all private institutions in the states -- proprietary and nonprofit.

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The State Board of Education, established in 1963, serves as a constitutional coordinating agency for postsecondary education and is the single agency for all public education including vocational and adult education. The board is composed of 10 members serving eight-year terms of office, with 8 members elected by the public and 2 serving in an ex officio capacity. The board has constitutional authority for planning and coordination for public senior, junior and vocational-technical institutions and as a matter of policy undertakes budget review and makes budget recommendations and approves programs for public senior and junior institutions. The extent of the board's authority for program approval was recently affirmed as advisory in nature by the state supreme court in relation to the constitutional autonomy of the University of Michigan and Michigan State and Wayne State Universities.

The state does not have an office of secretary of education and the board does not serve as a cabinet department. The executive officer of the board is appointed by the board and serves at the pleasure of the board. The State Board for Public Community and Junior Colleges is a constitutional advisory body to the State Board of Education. The Higher Education Facilities Commission serves as the authority to provide for tax exempt loans to independent nonprofit colleges for facilities acquisition, construction or remodeling.

Institutional Governing Boards

Institutional governing boards within the state include: (1) 10 boards of control or trustees of four-year public colleges and universities, each responsible for a single institution; (2) the Board of Regents of the University of Michigan, a constitutional board, governing the University of Michigan and its two branches; and (3) the Board of Governors of Wayne State University and the Board of Trustees of Michigan State University, both constitutional boards each responsible for a single public senior institution.

Master Planning

A complete inventory of all academic programs at state colleges and universities, community colleges and nonpublic institutions was completed in 1975. A state plan for higher education was approved in 1969 and is currently being reviewed for possible revision.

1202 Commission

The governor has designated the State Board of Education as the 1202 commission for the state.

State Student Assistance and Loan Agencies

The Michigan Higher Education Assistance Authority, part of the Michigan Department of Education, serves as the state student assistance agency and Michigan participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education. The board approves occupational programs for the 29 public community and junior colleges.

State-Level Organization of Private Colleges and Universities

The Association of Independent Colleges and Universities functions as the state-level organization for 35 private colleges and universities in the state.

Licensure/Approval Agencies

The State Board of Education has licensing and approval authority for vocational-technical and proprietary institutions within the state. The board also approves the charters for private degree-granting institutions.

MINNESOTA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Higher Education Coordinating Board serves as the statutory coordinating agency for postsecondary education in Minnesota. The agency was established in 1965 and has been amended six times since its inception, most recently in 1975. The board consists of 11 members appointed by the governor with the consent of the senate, all representing the general public and serving four-year terms of office. The board has statutory authority for planning and coordination for all postsecondary education in the state (public junior, senior, vocational-technical, private and proprietary). In addition, the board has statutory responsibility for budget and program review. During the year the board further improved the review of new academic programs, expanded efforts to review existing programs and began to provide increased coordination at early developmental phases of program planning in areas such as health, human services, agriculture, teacher preparation and preparation for government service. The state does not have an office of secretary of education and the board does not serve as a cabinet department. The executive officer of the agency is elected by the board and serves at the pleasure of the board.

Institutional Governing Boards

There are 4 institutional governing boards in Minnesota: (1) the Board of Regents of the University of Minnesota with constitutional authority for 3 public senior colleges and 2 public junior institutions (technical colleges for agricultural-related activities), (2) the State Board for Community Colleges with statutory authority for 18 public community colleges, (3) the State Board of Education with statutory authority for 33 vocational institutions and (4) the State University Board with statutory authority for 7 public senior universities.

Master Planning

A comprehensive continuing planning effort is used. Recommendations for state policy are made to the governor and legislature every two years by the coordinating board.

1202 Commission

The Higher Education Coordinating Board has been designated by the governor as the 1202 agency for Minnesota.

State Student Assistance and Loan Agencies

The Higher Education Coordinating Board serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Minnesota Private College Council serves as the organization for 17 private colleges and universities in the state.

Licensure/Approval Agencies

The Higher Education Coordinating Board functions as the approval and registration agency for private degree-granting institutions. The State Department of Education functions as the approval and licensing agency for vocational-technical and proprietary schools.

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Trustees of Institutions of Higher Learning, established in 1910 and reorganized in 1944, exercises constitutional governing authority over eight public institutions in the state. The board consists of 13 members, appointed by the governor with the consent of the senate, who represent the general public and serve 12-year terms of office. The board has statutory authority for planning and coordination, institutional budget review and consolidated budget recommendations and program approval for the eight senior institutions that it governs. The state does not have an office of secretary of education and the board does not serve as a cabinet department. The executive officer of the board is appointed by the board and serves under a four-year contract. The Division of Junior Colleges of the State Department of Education functions as a statutory regulatory and coordinating agency for the state's 16 public junior colleges.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

Information concerning the scope of master planning for all postsecondary education within the state is unavailable.

1202 Commission

The Postsecondary Educational Planning Board has been designated by the governor as the state's 1202 commission. There are 27 members of the board, appointed by the governor, with 7 representing the general public, 11 public institutions, 2 each representing private institutions, proprietary institutions and faculty and one each representing vocational-technical institutions, the student body and other.

State Student Assistance and Loan Agencies

As of January 1975, the governor's office of education and training serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. A newly created three-member commission was established by the 1975 legislature to handle a state student assistance program. However, no funds were appropriated. In addition, the Board of Trustees administered an out-of-state scholarship program, a medical education loan program, a nursing education aid program and the state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education functions as the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Mississippi Association of Private Colleges functions as the state-level organization for 16 private colleges and universities.

Licensure/Approval Agencies

The Board of Trustees of Institutions of Higher Learning functions as the approval and licensing agency for private degree-granting institutions in the state. The State Department of Education serves as the approval authority for proprietary schools.

MISSOURI

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Coordinating Board for Higher Education, staffed by the Department of Higher Education, was established in 1974 and functions as the constitutional coordinating agency for postsecondary education in the state. The board has nine members appointed by the governor with the consent of the senate. All nine members represent the general public and serve six-year terms of office. The board has statutory responsibility for planning and coordination for public senior, junior, vocational-technical and private institutions; institutional budget review and making budget recommendations; and program approval for public senior and junior institutions. The board conducts planning and coordination as a matter of policy for proprietary institutions. The state does not have an office of secretary of education and the coordinating board is a cabinet-level agency. The executive officer of the board is appointed by the board and serves at the pleasure of the board.

Institutional Governing Boards

Institutional governing boards in the state include: (1) the Board of Curators of the University of Missouri with constitutional authority for campuses; (2) the statutory Board of Curators of Lincoln University; (3) 10 boards of trustees over 10 public junior colleges; (4) 2 boards of trustees over 2 community colleges districts, each district consisting of 3 institutions; and (5) the boards of regents of state colleges and universities (7 boards) exercising authority over the 7 public senior colleges.

Master Planning

One of the established priorities for the Department of Higher Education is the development of procedures and strategies for comprehensive master planning for all postsecondary institutions in Missouri.

1202 Commission

The governor has designated the Coordinating Board for Higher Education as the 1202 commission.

State Student Assistance and Loan Agencies

The Department of Higher Education functions as the state's student assistance agency and Missouri participates in the federal State Student Incentive Grant program. Although the department continues to service loans made from 1968-1971, no new loans are being made under the state guaranteed loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education in Missouri.

State-Level Organization of Private Colleges and Universities

The Independent Colleges and Universities of Missouri serves as a state-level organization for 30 private colleges and universities.

Licensure/Approval Agencies

Only the secretary of state exercises approval authority in the form of a state charter.

MONTANA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Regents of Higher Education, established and amended with regard to structure and function in 1973, functions as a constitutional governing agency for the Montana University System and has supervisory and coordinating authority over the state's community colleges. The Board of Regents and the Board of Public Education together compose the State Board of Education, a single board for all public education in the state. The Board of Regents consists of 10 members, 7 appointed by the governor with the consent of the senate and 3 members who serve in an ex officio capacity. Of those appointed, there are six representing the general public and one student. The ex officio members include the commissioner of higher education, the state superintendent of public instruction and the governor. With the exception of the student, all appointed members serve seven-year terms of office. The Board of Regents has constitutional authority for planning and coordination, institutional budget review and making consolidated budget recommendations and program review and approval for public senior institutions, and statutory authority for the same functions with respect to community colleges. The state does not have an office of secretary of education and the agency does not function as a cabinet department. The executive officer of the Board of Regents and the University System is appointed by the board and serves at the pleasure of the board.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Boards above.

Master Planning

The commissioner of higher education conducts master planning for the public sector. The Governor's Commission on Postsecondary Education, an ad hoc group created in 1972, completed nearly two years of study and research concerning the state of postsecondary education in Montana. The report contains nearly 100 formal recommendations covering all phases of postsecondary education. Several bills have been introduced to the state legislature in an attempt to facilitate implementation of the recommendations.

1202 Commission

The Commission on Federal Higher Education Programs, which includes the Board of Regents of Higher Education, has been designated by the governor as the 1202 commission. The seven appointed members from the regents represent the general public and three members represent private and proprietary institutions. The commissioner of higher education or his designee is the executive officer.

State Student Assistance and Loan Agencies

The office of the commissioner of higher education functions as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The Board of Public Education functions as the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

There is no formal state-level organization for private colleges and universities in the state.

Licensure/Approval Agencies

The Board of Regents of Higher Education functions as the approval and licensing authority for private degree-granting institutions. Proprietary schools are approved by the State Department of Business Regulation with counsel from an advisory board which includes the superintendent of public instruction and the commissioner of higher education as ex officio members. The commissioner's approval is required before such institutions may use the designation "college" of "university."

NEBRASKA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

Nebraska does not have a statutory or constitutional statewide coordinating agency. Two constitutional institutional governing boards exist in the state: (1) the Board of Regents of the University of Nebraska responsible for three public senior colleges, including a medical center and (2) the Board of Trustees of Nebraska State Colleges responsible for four public senior institutions. There is a statutory Coordinating Commission for Technical Community Colleges with supervisory and advisory responsibilities for the 11 technical community colleges.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Boards above.

Master Planning

The coordinating council culminated months of investigation and discussion with a report to the governor recommending the statutory establishment of a Nebraska Coordinating Commission for Postsecondary Education. This report resulted in legislation which was held for consideration in the 1976 session. The commission as recommended would be broadly representative of all sectors of postsecondary education and charged to develop comprehensive plans for the coordination of postsecondary education services and facilities, including the development of a state master plan.

1202 Commission

The Nebraska Coordinating Council for Postsecondary Education was designated by the governor as the 1202 commission. The commission consists of 24 members with the following representation: 5 for the general public, 5 for public four-year institutions, 6 members for public community and junior colleges and 2 private nonprofit institutions, 2 members for proprietary institutions, 1 student and 2 state senators.

State Student Assistance and Loan Agencies

The Coordinating Council for Postsecondary Education has the responsibility of administering the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education functions as the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Nebraska Association of Independent Colleges and Universities functions as the state-level organization for 11 private colleges and universities.

Licensure/Approval Agencies

Nebraska does not have a state-level licensing and approval authority for degree-granting and proprietary institutions.

Research or issue studies underway or expected to be completed from September 1975 to September 1976.

There are no other regularly scheduled reports. Specialized research efforts are in discussion at present.

NEVADA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Regents of the University of Nevada System, established in 1864, functions as the constitutional governing agency for postsecondary education in the state. The board consists of nine members elected by the public for six-year terms of office. The board has statutory authority for planning and coordination for public senior, junior and vocational-technical institutions. In addition, the board has statutory responsibility for budget review and consolidated budget recommendations and program approval for senior and junior public institutions. Nevada does not have a state office of secretary of education and the Board of Regents does not function as a cabinet department. The executive officer of the agency is appointed by the board and serves at the pleasure of the board.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

In 1974, the Board of Regents adopted and sent to the legislature a comprehensive statewide plan for higher education in Nevada. The four-year (1975-79) plan will be reviewed and updated in 1977 and every two years thereafter.

1202 Commission

The Nevada Higher Education Commission has been designated by the governor as the 1202 commission for the state. The 12 members are appointed by the governor. Nine from the existing agency (Board of Regents) represent the general public as well as public four-year institutions and public community and junior colleges, two members represent proprietary institutions and one member represents the State Board of Education.

State Student Assistance and Loan Agencies

The University of Nevada System functions as the state student assistance agency and Nevada does not participate in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education serves as the State Board of Vocational Education.

State-Level Organization for Private Colleges and Universities

Nevada does not have a state level organization for private colleges and universities.

Licensure/Approval Agencies

The Commission on Postsecondary Educational Authorization serves as the approval and licensing authority for private degree-granting, vocational-technical and proprietary institutions.

NEVADA

NEW HAMPSHIRE

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Postsecondary Education Commission, established in 1973, functions as the statutory coordinating agency for postsecondary education in the state. The commission is composed of 21 members, 7 appointed by the governor, 10 appointed by others and 4 in an ex officio capacity. Of the members, five each represent the general public, public institutions and private institutions, three members represent vocational-technical institutions and there are three students on the commission. The commission has statutory responsibility for planning and coordination for public senior and junior institutions, vocational-technical institutions and proprietary institutions. No postsecondary institution in the state may award a degree without approval by the commission. New Hampshire does not have an office of secretary of education and the Postsecondary Education Commission does not serve as a cabinet department. The executive officer of the commission is appointed by the commission and serves at the pleasure of the commission.

Institutional Governing Boards

New Hampshire has two institutional governing boards: (1) the Board of Trustees of the University of New Hampshire system with statutory authority for three public senior colleges, and (2) the State Board of Education with statutory authority for seven vocational institutions.

Master Planning

A master plan for postsecondary education in New Hampshire was issued in 1973. During 1976 a new master plan is being formulated.

1202 Commission

The Postsecondary Education Commission has been designated by statute as the 1202 commission for the state.

State Student Assistance and Loan Agencies

New Hampshire has no student assistance program and does not participate in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

Although New Hampshire does not have a state-level organization for private colleges and universities, the New Hampshire College and University Council consists of all public and all but two private degree-granting institutions in the state. Through the council, interinstitutional cooperation is made possible.

Licensure/Approval Agencies

The Postsecondary Education Commission has approval and licensing authority for private degree-granting institutions. The State Department of Education has approval authority for technical-vocational schools and proprietary schools.

NEW JERSEY

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Higher Education, established in 1967, is the statutory coordinating agency for postsecondary education in the state. The board consists of 18 members: 9 public members who are citizens appointed by the governor with the consent of the senate, 7 representing the sectors of the higher education institutions and 2 members who serve in an ex officio capacity. All public board members serve six-year terms of office. The board has statutory responsibility for coordination and planning for public senior and junior institutions and private institutions. In addition, the board has statutory responsibility for institutional budget review and making consolidated budget recommendations and program approval for public senior and junior institutions, aid to independent colleges and student financial aid. The chancellor of higher education is the head of the cabinet-level Department of Higher Education and is appointed by the Board of Higher Education and confirmed by the governor for a five-year term. The board has established a Commission on the Financing of Postsecondary Education to examine the issues of financing and make recommendations to the board in fall 1976.

Institutional Governing Boards

There are 29 governing boards in the state of New Jersey. The Board of Governors of Rutgers University has statutory authority for that institution which is the public university. The Board of Trustees of the College of Medicine and Dentistry of New Jersey has statutory authority for the two medical schools, the dental school and the graduate school of biomedicine, and the Board of Trustees of New Jersey Institute of Technology has statutory authority over that single institution. In addition, there are 17 individual county college boards each governing a single public junior college and 9 state boards, each governing a single public senior college.

Master Planning

The Board of Higher Education is responsible for overall planning for the entire higher education system of the state. With the issuance in June 1974 of the second phase of the master plan, A Development Plan for Higher Education in New Jersey, the overall planning undertaking was completed for the time being. Adopted by the board, it provides an overall framework for state and institutional planning. During the past year, a major effort was made to analyze the state's needs for programs in the fine and performing arts and teacher education. In addition, manpower studies continue to be developed in the health field. Planning covers private and public higher education institutions. Other postsecondary planning is in cooperation with the State Department of Education through the statutory Education Coordinating Council composed of the chairman/president of the two state boards, one citizen member from each, the chancellor of higher education and the commissioner of education. There are no formal requirements to involve groups in planning, but all plans have been developed with formally organized advisory groups from all concerned sectors.

1202 Commission

The Board of Higher Education was designated by the governor as the 1202 commission. The membership of the board is augmented by three representatives when it operates as the 1202 commission.

State Student Assistance and Loan Agencies

The Department of Higher Education functions as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Association of Independent Colleges and Universities in New Jersey serves as the statewide voluntary organization representing the 17 major private colleges and universities.

Licensure/Approval Agencies

The Board of Higher Education functions as the approval and licensing agency for private degree-granting institutions, except eight institutions established before 1887. The State Department of Education functions as the approval authority for technical-vocational and proprietary institutions. However, any postsecondary proprietary institutions seeking to offer degrees would come under the jurisdiction of the Department of Higher Education.

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Educational Finance, established in 1951, functions as the state coordinating agency for postsecondary education. Its structure and responsibility were amended in 1967 and again in 1973. The board consists of 13 members, 11 representing the general public and appointed by the governor to serve six-year terms of office, and 2 members representing the students who are appointed by the governor to serve one-year terms as ex officio members. The board has statutory responsibility for planning and coordination for all sectors of postsecondary education (public senior, junior, vocational-technical, private and proprietary). In addition, the agency has statutory responsibility for budget review and recommendation for public senior and junior institutions and for program approval for new graduate programs in public senior colleges.* There is a cabinet-level secretary of education, appointed by executive order, who serves as the governor's chief advisor on all areas of education The Board of Educational Finance is not a cabinet department. The executive officer of the board is appointed by the board and serves at the pleasure of the board.

Institutional Governing Boards

There are 11 institutional governing boards in the state: the statutory Board of Albuquerque Technical-Vocational Institute and Board of Luna Area Vocational School, each for single vocational institutions, and the Board of New Mexico Junior College public junior college; and the constitutional regents of (1) New Mexico Military Institute for a single public junior institution; (2) the University of New Mexico and Eastern New Mexico University, each governing two public junior institutions and one public senior college; (3) New Mexico Highlands University and New Mexico Institute of Mining and Technology, each with authority over a senior public institution; (4) New Mexico State University governing five junior institutions and a senior institution; (5) New Mexico Technical-Vocational School for two vocational institutions; and (6) Western New Mexico University governing a senior institution.

Master Planning

A master planning effort is being implemented.

1202 Commission

The Board of Educational Finance has been designated by statute as the 1202 commission. The board's membership was not augmented when it became a 1202 commission.

State Student Assistance and Loan Agencies

The Board of Educational Finance functions as the state student assistance agency and New Mexico does not participate in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Council of Independent Colleges and Universities of New Mexico functions as the state-level organization for three private colleges and universities.

Licensure/Approval Agencies

The Board of Educational Finance has approval and licensing authority for private and proprietary schools. The State Department of Education has approval authority for public vocational-technical area vocational schools.

---

*In a sense the 1973 statute gives the board this responsibility for all postsecondary education.

NEW YORK

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Regents of the University of the State of New York (the State Education Department), established by statute in 1784 and by constitution in 1938, serves as the coordinating and supervisory agency for all levels of education, public and private, including adult and vocational education. The structure and responsibility of the board was amended in 1974. The board consists of 15 representatives of the general public, elected by the public to serve seven-year terms of office. The board has statutory responsibility for planning and coordinating for all segments of postsecondary education (62 junior and 157 senior institutions) and for program approval for public senior and junior institutions. The state does not have an office of secretary of education. The commissioner of education serves as a cabinet member. However, he is appointed by the Board of Regents and serves at the pleasure of the board.

Institutional Governing Boards

There are two statutory public institutional governing boards in the state -- the Board of Trustees of the State University of New York with responsibility to govern 36 junior institutions and 28* senior institutions and the Board of Higher Education of the City of New York with responsibility for 8 junior and 11 senior institutions.

Master Planning

In 1972, the regents adopted and submitted to the governor their 1972 statewide plan for the development of postsecondary education, *Education Beyond High School*, the third in a series of statewide plans required every four years. In November 1974, the regents issued a mandated progress report, *Postsecondary Education in Transition*. The report focused on the state of New York's postsecondary education enterprise during a period of economic, political and social uncertainty. In anticipation of the strong possibility of no growth or only limited growth in the near future, it examined issues such as institutional survival, patterns of state and federal financing of institutions and students, the maintenance of quality in times of competition for students and funds and enrollment goals for the state's postsecondary institutions through 1976 and project the pattern of enrollments through 1990.

1202 Commission

The Board of Regents of the University of the State of New York has been designated by the governor as the 1202 commission. Its membership was not augmented.

State Student Assistance and Loan Agencies

The New York State Higher Education Services Corporation serves as the state student assistance agency and New York participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The Board of Regents is the State Board of Vocational Education.

State-Level Organization for Private Colleges and Universities

The Commission on Independent Colleges and Universities of the State of New York serves as the state-level organization for 102 private institutions.

Licensure/Approval Agencies

The Board of Regents is the approval and authority agency for private degree-granting institutions. The Division of Special Occupational Services within the State Education Department (under the regents) serves as the approval authority for vocational-technical and proprietary institutions.

---

*The Health Sciences Center at Buffalo Center is included with the State University of New York at Buffalo; similarly the Health Sciences Center at Stony Brook is considered to be an integral part of the State University of New York at Stony Brook, in accordance with institutional and state policy.

NORTH CAROLINA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Governors of the University of North Carolina, established in 1972, functions as the statutory governing agency for 16 senior public institutions in the state.* The board is composed of 32 members, eight of whom are elected by the legislature every two years. All 32 members, serving eight-year terms of office, represent the general public and each group of 8 must include a minimum of one woman, one member of a minority race and one member of the party which constitutes the minority in the legislature. The board has statutory responsibility for statewide planning for public junior, senior, vocational and technical and private institutions. In addition, the board has statutory authority for program approval and making consolidated budget recommendations for public senior institutions. The State Board of Education has statutory authority for 17 public community colleges and 40 vocational-technical institutions. North Carolina does not have an office of secretary of education and the Board of Governors does not serve as a cabinet department. The executive officer of the board, the president, is elected by the board and serves at the pleasure of the board.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

All 16 public senior institutions in the state have submitted long-range plans to the Board of Governors. These plans, which focus primarily upon program development during the next five years, are being studied by the university staff and will serve as a basis for staff recommendations and board decisions regarding future roles of the several institutions. A major objective is the achievement of a better coordinated system of higher education in the state.

1202 Commission

A 1202 Commission has not been designated in the state of North Carolina.

State Student Assistance and Loan Agencies

The North Carolina Education Assistance Authority functions as the state student assistance agency and North Carolina participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education functions as the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The North Carolina Association of Independent Colleges and Universities is the state-level voluntary membership organization for 38 private colleges and universities in the state of North Carolina.

Licensure/Approval Agencies

The Board of Governors of the University of North Carolina functions as the approval and licensing agency for private degree-granting institutions. The State Board of Education functions as the approval authority for vocational-technical and proprietary institutions.

---

*Under the statute creating the Board of Governors, a board of trustees was provided for each of the 16 institutions; responsibilities are largely delegated by the Board of Governors.

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Higher Education, established in 1939, functions as the constitutional governing agency for two public universities, one public university two-year branch, four public state colleges and one two-year public liberal arts and trade-technical institution. The board consists of seven members appointed by the governor with the consent of the senate, all seven representing the general public and serving seven-year terms of office. The board conducts planning and coordination activities for public senior and junior institutions and one liberal arts trade-technical institution both as a matter of policy and with constitutional and statutory authority. In addition, the board has statutory program approval authority and statutory responsibility to review institutional budgets and make consolidated budget recommendations for public junior and senior institutions. The state does not have an office of secretary of education and the board does not function as a cabinet department. The executive officer of the board is appointed by the board for a three-year term of office. No separate public institutional governing boards exist in the state.

Institutional Governing Boards

See State-Level Coordination and/or Governing Agency above.

Master Planning

Information concerning the status and scope of master planning for postsecondary education in North Dakota is not available.

1202 Commission

The membership of the existing Higher Education Facilities Commission, which includes the seven members of the Board of Higher Education, was augmented when the governor designated the agency as the 1202 commission for the state. The 1202 commission consists of 17 members -- the 10 members of the facilities commission, four members representing the general public and one member each representing public vocational-technical, proprietary institutions and the North Dakota Student Association.

State Student Assistance and Loan Agencies

The North Dakota Student Financial Assistance Agency is the state student assistance agency and North Dakota participates in the federal State Student Incentive Grant program. The state does not have a state guaranteed loan program, although the Bank of North Dakota, a state-owned and operated bank, participates fully in the federal insured loan program.

State Board of Vocational Education

The State Board of Public School Education serves as the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The North Dakota Council of Independent Colleges functions as a state organization for three private colleges in the state.

Licensure/Approval Agencies

The State Board of Vocational Education functions as the approval authority for vocational-technical and proprietary institutions. There is not an official approval and licensing agency for private degree-granting institutions.

OHIO

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Ohio Board of Regents, established in 1963, serves as the statutory coordinating agency in the state. The board consists of 11 members serving 9-year terms of office, with 9 members representing the general public and appointed by the governor with the consent of the senate and 2 members (chairperson of house and senate education committees) serving in an ex officio capacity. The board has statutory authority for planning and coordination for private institutions and public senior, junior and technical institutions. In addition, the board as the designated 1202 agency also considers proprietary institutions in planning. The board has statutory responsibility to review institutional budgets, review and make recommendations for a consolidated budget and approve programs for public senior and state junior colleges. The state does not have an office of secretary of education and the board does not serve as a cabinet department. The executive officer of the board is appointed by the board and serves at the pleasure of the board.

Institutional Governing Boards

The statutory institutional governing boards in the state are as follows: the Boards of Trustees of Bowling Green State University, the University of Akron and Wright State University, each governing one public junior and one senior college; the Boards of Trustees of Central State University, Cleveland State University, the University of Toledo and Youngstown State University, each governing a single senior public institution; the Boards of Trustees of Ohio University and Ohio State University each responsible for one senior institution and five public junior institutions; the Board of Trustees of Kent State University with seven public junior institutions and a single public senior institution; and the Board of Trustees of Miami University with two public junior institutions and a single public senior institution. There are 1 state-affiliated university -- Board of Directors of the University of Cincinnati, which also governs 2 public junior colleges -- 5 community colleges governed by individual county boards, 17 technical institutes governed by boards representing local school taxing districts and 3 state general and technical colleges with appointed boards of trustees. The Medical College of Ohio at Toledo is an independent institution with a separate governing board. There also has been created by statute the Northeastern Ohio Universities College of Medicine with a nine-member board of trustees consisting of the presidents of the three participating universities, a member from each board of the participating institutions and a person appointed by each university board.

Master Planning

In fiscal year 1974, the Board of Regents prepared a planning report on the two-year college system in Ohio, which will be reviewed in 1976 for inclusion in the bicentennial version of the master plan for higher education. The regents have underway a review of graduate level programs. The board has adopted policy statements relative to the relationship with private institutions and to the coordination of off-campus instruction by public colleges and universities.

1202 Commission

The Board of Regents has been designated by the governor as the state 1202 commission. The membership of the board was not augmented when it became a 1202 commission. The board has appointed a 15-member advisory committee representing postsecondary education to assist it in this role.

State Student Assistance and Loan Agencies

The Board of Regents' student assistance office serves as the state student assistance agency and Ohio participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program administered by the Student Loan Commission.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Association of Independent Colleges and Universities of Ohio serves as the organization for 42 private colleges and universities in the state.

Licensure/Approval Agencies

The Board of Regents has approval and licensing authority for the state's private degree-granting institutions. The Department of Education approves vocational-technical schools and proprietary schools are approved by the Board of School and College Registration.

OKLAHOMA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The State Regents for Higher Education, established by constitutional amendment in 1941, is the coordinating agency for all postsecondary education in Oklahoma. As a result of 1972 legislation, the regents also function temporarily as the governing board of the Oklahoma College of Osteopathic Medicine and Surgery. The membership of the regents is set by the constitution at nine members, appointed for nine-year overlapping terms by the governor with the consent of the senate, all representing the general public. The regents have constitutional responsibility for prescribing standards, determining the functions and courses of study, granting degrees, setting fees, determining budget needs and making budget allocations to all public institutions of higher education, both senior and junior. In addition, the regents have constitutional authority for planning and coordination of all postsecondary institutions, both public and private. Oklahoma does not have an office of secretary of education and the regents do not function as a cabinet department. The executive officer of the regents is appointed by the regents and serves at their pleasure.

Institutional Governing Boards

Oklahoma's public institutions of higher education are operated by 16 governing boards, 3 of which are constitutional and 2 of which govern more than one institution. The constitutional boards are the Board of Regents of the University of Oklahoma, the Board of Regents of Oklahoma Colleges which governs six senior institutions and the Board of Regents for the Oklahoma Agricultural and Mechanical Colleges which governs Oklahoma State University, three public senior colleges and two public junior colleges. With the exception of the College of Osteopathic Medicine as noted above, all other public institutions of higher education have separate and independent statutory governing boards.

Master Planning

During 1975 the State Regents for Higher Education conducted a major review and evaluation of postsecondary education in the state. The purpose of the study was to assess and update The Plan for the 70's, a comprehensive planning document designed to provide for the orderly growth and development of Oklahoma higher education through the decade of the 1970s and to project the statewide plan through 1985. The review included a restudy of the goals, functions and programs of Oklahoma higher education as well as institutional viability, physical facilities, governance structure, student and faculty makeup, financing, off-campus education, libraries, graduate, professional and health-related education, computer installations, standards and degrees and technical education. The report is scheduled for publication early in 1976.

1202 Commission

The State Regents for Higher Education was designated by the governor as the state 1202 commission. The membership of the regents was not augmented when it became the 1202 commission.

State Student Assistance and Loan Agencies

The state regents function as the state student assistance agency operating a variety of student assistance programs. Oklahoma participates in the federal State Student Incentive Grant program through the Oklahoma Tuition Aid Grant Program. The state also has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Vocational Education is the State Board of Vocational and Technical Education, which is independent of the State Board of Education.

State-Level Organization of Private Colleges and Universities

The Oklahoma Association of Independent Colleges and Universities is the state organization for 11 private colleges and universities.

Licensure/Approval Agencies

The State Regents for Higher Education function as the approval and licensing agency for private degree-granting institutions in the state. The Department of Vocational and Technical Education has approval authority for secondary-level vocational-technical institutions and the Oklahoma Board of Private Schools holds approval authority for proprietary institutions.

OREGON

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Educational Coordinating Council, established in 1963 and amended most recently in 1975 as the Educational Coordinating Commission, serves as the statutory coordinating agency for the state. The new commission consists of seven lay members appointed by the governor with senate confirmation. The new law requires that none of the commission be members of governing boards or be employed by or be operators of a public or private education agency or institution. The commission is required, however, to appoint an advisory committee representing all segments of education, including administrators, students and faculty. With respect to postsecondary education, the commission has statutory authority to review all proposed new and existing programs and locations for consistency with statewide policy and program objectives. The commission has final authority for approval or disapproval of new publicly operated programs having a significantly adverse impact on more than one segment of education. The commission has had transferred to it from the Board of Education the responsibility to approve degree-granting authority. The commission also has a new budget review responsibility to assess the budgetary priorities of the educational segments and to make recommendations to the governor and the legislature prior to their action on the budget requests. Oregon does not have an office of secretary of education and the commission is not a cabinet department. The executive officer of the commission is appointed by the commission and serves at its pleasure.

Institutional Governing Boards

There are two institutional governing boards in the state -- the State Board of Education with statutory authority for the supervision and regulation of 13 community colleges, each of which has its own elected governing board and the State Board of Higher Education with statutory authority for 8 public senior institutions.

Master Planning

The newly reorganized coordinating commission has been directed to develop, adopt and maintain a comprehensive education plan and related policy objectives, which include statewide educational goals and indicators appropriate for evaluating the effectiveness of all aspects of education from kindergarten through postgraduate programs. The Board of Education and the Board of Higher Education are directed to cooperate with the commission in this procedure. The commission is also to maintain a central data base, to identify educational needs and expectations, to require each postsecondary governing board to submit a long-range plan and to review and coordinate such plans. It appears that the reorganization of the coordinating commission indicates a greater role for the commission in the development and implementation of a state master plan for postsecondary education.

1202 Commission

The Educational Coordinating Commission has been designated by the governor as the 1202 commission for the state. The membership of the commission was not augmented when it became the 1202 commission.

State Student Assistance and Loan Agencies

The Oregon State Scholarship Commission functions as the state student aid agency and Oregon participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education functions as the State Board of Vocational Education and is responsible for all designated two-year postsecondary schools, including the 13 comprehensive community colleges.

State-Level Organization of Private Colleges and Universities

The Oregon Independent Colleges Association serves as the state organization for 16 private colleges and universities.

Licensure/Approval Agencies

The Educational Coordinating Commission has approval and licensing authority for private degree-granting institutions. The State Board of Education has approval authority for vocational-technical and proprietary institutions.

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The State Board of Education, created by the General Assembly in 1963, is organized into two councils having members appointed by the governor with the advice and consent of the senate for overlapping terms of six years. Of the board's 17 members, 9 serve as members of the Council of Basic Education and 9 as members of the Council of Higher Education with the chairman of the board serving on both councils. The board is representative of the general public and the public and private institutions of postsecondary education. There is a statutory office of secretary of education and the State Department of Education is a cabinet-level coordinating/governing agency having statutory authority for planning and coordination for Pennsylvania's postsecondary education segments consisting of 14 state-owned, 4 state-related and 14 state-aided colleges and universities; 14 community colleges; 111 private colleges and universities; and 36 proprietary institutions. The executive officer of the department, the secretary of education, is appointed by the governor and serves at his pleasure. The 14 state colleges and five branch campuses are governed by the Board of State College and University Directors subject to the rules and regulations of the State Board of Education.

The State Board of Education reviews policies, standards, rules and regulations formulated cooperatively by the councils and the department; adopts broad policies and principles and establishes standards governing education in the state; and annually reviews the budget requests of the department and of the educational institutions financed wholly or in part from state appropriations, recommending approval or disapproval to the governor and the legislature. The Board of State College and University Directors reviews budget requests and program proposals from the state-owned institutions, recommending approval or disapproval to the secretary of education, who has final statutory authority for budget and program approval. The State Department of Education recommends to the governor budgets of other publicly supported institutions -- state-related, state-aided and community colleges -- and has limited program approval responsibilities for these and all other segments of higher education.

Institutional Governing Boards

In addition to the Board of State College and University Directors, noted in the section above, the other institutional governing boards are the following (not including the non-state-supported private institutions). The Board of Trustees of Pennsylvania State University has authority for the university and its 20 branch campuses. The Board of Trustees of the University of Pittsburgh has responsibility for the university and four branch campuses. The Boards of Trustees of Temple and Lincoln Universities have authority for their respective institutions. Boards of trustees for 14 community colleges have authority for these institutions.

Master Planning

Pennsylvania has developed two master plans. The first in 1966, particularly concerned with enrollments, programs and finances, provided a framework for comprehensive long-range planning for the public segment. The 1971 plan, proposing an integrated system of higher education in which both state-supported and independent institutions are considered in the broad context of public service, is problem-oriented with attention directed toward specific issues in higher education. Consistent with the 1971 master plan and Act 224 of 1972, the State Department of Education developed the concept of regionalization in which the state was divided into 10 regions. Institutions from these regions formed eight voluntary and autonomous regional planning councils, all of which have state board recognition and five of which have been funded in part by the department. A regionalization office has been established within the department to coordinate regional council activities. Present regionalization policy adopted by the state board represents a milestone in the development of cooperative interaction among institutions of postsecondary education in Pennsylvania.

1202 Commission

The Council of Higher Education serves, by gubernatorial designation, as the nucleus of the 24-member postsecondary planning commission (1202 commission) which also includes representatives of the institutional segments, vocational-technical education, faculty, students and the general public. The commission is presently developing a statewide plan for postsecondary education, responding to the major educational issues, which involves the existing boards, the State Department of Education, all higher education segments, the regional planning councils, the education community at large and representatives of the legislative education committees.

State Student Assistance and Loan Agencies

The Pennsylvania Higher Education Assistance Agency serves as the state student assistance agency and Pennsylvania participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education functions as the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Commission for Independent Colleges and Universities of Pennsylvania serves as the state organization for 80 private colleges and universities.

Licensure/Approval Agencies

The State Department of Education has licensing authority for all postsecondary proprietary institutions. The department also has charter authority and approval over all new postsecondary education degree-granting institutions.

RHODE ISLAND

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Regents for Education, established in 1969 and amended in 1973, serves as the single board for all public education including vocational and adult education and as the statutory governing agency for the University of Rhode Island, Rhode Island College and Rhode Island Junior College. The Board of Regents consists of 15 members, 13 appointed by the governor with senate confirmation, and the chairman of the senate and house finance committees. All members serve a three-year term of office. The Board of Regents is organized into three subcommittees from the membership of the principal board -- elementary and secondary education, special populations and postsecondary education. All state-level administrative responsibilities related to vocational education and postsecondary education are carried out by the Department of Education under the direction of the commissioner. The Board of Regents has statutory responsibility for planning and coordination for public elementary, secondary and vocational-technical institutions. In addition, the regents have statutory authority for program approval and consolidated budget recommendations for the public colleges. The state does not have an office of secretary of education and the board does not serve as a cabinet department. The executive officer of the board is appointed by the board with the approval of the governor and serves at the pleasure of the board for an initial term of three years. There are no other state-level public governing agencies in the state.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

Two major planning projects are presently underway: a statement of purposes for postsecondary education in Rhode Island and the development of a comprehensive plan for financial assistance. Both of these comprehensive planning endeavors fall under the jurisdiction of the Postsecondary Education Commission.

1202 Commission

In July 1974, the governor established, by executive order, the Rhode Island Postsecondary Education Commission (1202 commission). The 15 members of the Board of Regents and 4 additional members representing the private and proprietary sector make up the commission. The commissioner of education serves as the chief executive officer.

State Student Assistance and Loan Agencies

The Office of Scholarships and Teacher Certification in the Department of Education serves as the state student assistance agency and Rhode Island participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The Department of Education serves as the State Board of Vocational Education.

Licensure/Approval Agencies

The Board of Regents has approval and licensing authority for private degree-granting institutions and approval authority for vocational-technical and proprietary institutions.

SOUTH CAROLINA

Part I: State Structure

State-Level Coordinating and/or Governing Agency

The Commission on Higher Education was established in 1967 as the statutory coordinating agency for postsecondary education. Of the 17 members of the commission, 9 members are appointed by the governor from the state at large, serve 4-year terms and may be reappointed. The chairman or a trustee selected by the chairman from the eight public postsecondary boards of trustees serves ex officio for a period determined by the chairman of each board. The commission has statutory responsibility to make studies regarding roles, operations, structure and external relations of all postsecondary educational institutions in the state and to submit recommendations to the State Budget and Control Board and the legislature; and to receive and review appropriation requests from the public colleges and universities and make recommendations to the Budget and Control Board and General Assembly. By statute no new program may be undertaken by any public postsecondary institution without commission or legislative approval. South Carolina does not have an office of secretary of education and the commission does not function as a cabinet-level department. The executive officer of the commission is appointed by and serves at the pleasure of the commission.

Institutional Governing Boards

The eight institutional governing boards include boards of trustees for Clemson University, the Medical University, South Carolina State College and Winthrop College and the Board of Visitors for the Citadel, each governing a single institution. The Board of Trustees of the University of South Carolina governs four senior and six two-year branches and the State College Board of Trustees governs three senior institutions. The State Board for Technical and Comprehensive Education governs 16 two-year technical education institutions.

Master Planning

Long-range comprehensive planning which includes consideration of all sectors of postsecondary education in South Carolina is conducted under the aegis of the 1202 commission. There is no statutory or other requirement to develop a master plan. An advisory council of (public college and university) presidents and an advisory council of private college presidents were created by the 1967 act, as amended, to meet with and submit recommendations to the Commission on Higher Education. Both councils are involved in the comprehensive planning conducted by the 1202 commission.

1202 Commission

On July 23, 1974, the governor by executive order designated the Commission on Higher Education as the 1202 commission, augmented by the state superintendent of education, the chairman of the advisory council of private college presidents and a representative from the proprietary sector. The executive director of the Commission on Higher Education is the executive director of the 1202 commission. The 1202 commission has approved a comprehensive list of planning tasks for the next few years designed to provide the data and objective analyses necessary for comprehensive planning.

State Student Assistance and Loan Agencies

A Higher Education Tuition Grant Committee, consisting of eight representatives of private nonprofit postsecondary institutions and two legislators serving ex officio, administers a state-supported grant program for students at private institutions. The committee also administers the state's participation in the federal State Student Incentive Grant program. Members of the State Budget and Control Board function as the State Education Assistance Authority to administer state funds made available for student loans. The Authority contracts with the South Carolina Student Loan Corporation, a state-chartered lending agency privately established for the purpose of administering the program.

State Board of Vocational Education

The State Board of Education is designated the State Board of Vocational Education and as such governs 51 vocational education centers. Vocational-occupational education programs are also conducted by the 16 technical educational institutions under the State Board for Technical and Comprehensive Education and by many junior and senior public and private colleges. The State Board for Technical and Comprehensive Education has statutory responsibilities for coordination with the Commission on Higher Education and no new program may be undertaken by any public postsecondary educational institution without the approval of the commission or the legislature. Coordination by the State Board of Vocational Education with the commission is voluntary.

State-Level Organization of Private Colleges and Universities

The South Carolina College Council functions as the organization for the private colleges and universities in the state. The South Carolina College Foundation, originally organized as a fund-raising organization, consists of a portion of the members of the council.

Licensure/Approval Agencies

There is no designated approval or licensing authority for private degree-granting institutions. The State Board of Education has authority to license proprietary schools and to approve certain of these to award the associate degree.

SOUTH DAKOTA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

In 1973, under executive order, a cabinet Department of Education and Cultural Affairs for all public education was established. The department is headed by a secretary of education and cultural affairs who is appointed by and serves at the pleasure of the governor. The department is comprised of three divisions: elementary and secondary education, vocational-technical education and higher education. The State Board of Regents within the Department of Educational and Cultural Affairs serves as a constitutional governing body for seven senior state institutions (there are no public junior colleges in the state). The board consists of seven members, representative of the general public and appointed by the governor with senate confirmation to serve six-year terms of office. The board has statutory responsibility for planning and coordination, institutional budget review and making recommendations for a consolidated budget and program approval for senior public institutions. The executive officer of the Board of Regents is appointed by the board and serves at the board's pleasure.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

The Bureau of Planning, a cabinet-level department, is responsible for developing long-range plans for all of state government in South Dakota. A planning commission, an advisory board to the secretary of education and cultural affairs (also serves as the 1202 commission), coordinates the plans for the divisions under its jurisdiction. It also attempts to coordinate the private and proprietary plans with those of the public sector. The Board of Regents periodically develops long-range plans and modifies them frequently. Each public institution participates in the planning at all stages of development.

1202 Commission

A planning commission under the Department of Education and Cultural Affairs was designated by executive order as the 1202 commission. The planning commission is composed of a total of 13 members, 7 representing the general public and 1 member each representing public four-year institutions, public vocational-technical institutions, private nonprofit institutions and proprietary institutions. In addition, there is one representative each from the State Board of Education and the Division of Cultural Affairs.

State Student Assistance and Loan Agencies

The office of the secretary, Department of Education and Cultural Affairs serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The state does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is not the State Board of Vocational Education. A separate State Board of Vocational Education comprises one of the three divisions within the Department of Education and Cultural Affairs.

State-Level Organization of Private Colleges and Universities

The South Dakota Association of Private Colleges serves as a state organization for seven private colleges and universities in the state.

Licensure/Approval Agencies

The Postsecondary Regulatory Agency within the Department of Education and Cultural Affairs has licensing and approval authority for postsecondary educational institutions.

SOUTH DAKOTA

TENNESSEE

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Higher Education Commission, established in 1967 and amended in structure and responsibility in 1973 and 1974, serves as the statutory coordinating agency for postsecondary education in Tennessee. The commission consists of nine members, representative of the general public, appointed by the governor for a nine-year term of office. The commission has statutory responsibility for planning and coordination for public junior and senior institutions and conducts planning and coordination activities as a matter of policy for these institutions as well as for private institutions. As a matter of policy, and with statutory authority, the commission reviews institutional budgets and reviews and makes budget recommendations for public junior and senior institutions. In addition, the commission has statutory authority to approve programs for public junior and senior institutions. Tennessee does not have an office of secretary of education and the commission does not serve as a cabinet department. The executive officer of the commission is appointed by the commission and serves at the pleasure of the commission.

Institutional Governing Boards

There are two institutional governing boards in the state: (1) the Board of Regents of the State University and Community College System which exercises statutory responsibility for 10 junior and 6 senior public institutions and (2) the Board of Trustees of the University of Tennessee which exercises statutory authority for 5 senior institutions.

Master Planning

The revised master plan for Tennessee will address itself to the current status of state education as well as future prospects. Both governing boards in the state are revising their role and scope statements and committees are being formed to review the various topics of the plan. The Higher Education Commission plans to have the final document ready in late fall or early winter (1975-76).

1202 Commission

A 1202 commission has not been designated in Tennessee.

State Student Assistance and Loan Agencies

The Tennessee Student Assistance Corporation functions as the state student assistance agency and Tennessee participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

The Tennessee Council of Private Colleges serves as the organization for 39 private colleges and universities in the state.

Licensure/Approval Agencies

The Higher Education Commission has approval and licensing authority for private degree-granting institutions. The Commission on Postsecondary Vocational Educational Institution Authorization has approval authority for vocational-technical institutions. The Higher Education Commission and the Commission on Vocational Education Institution Authorization have approval authority for proprietary schools.

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Coordinating Board, Texas College and University System was established in 1965 and serves as the statutory coordinating agency for postsecondary education in the state. Its responsibilities were most recently amended in 1975. Under law, the Coordinating Board has responsibility for central control and coordination of all public institutions of higher education in the state. The board is composed of 18 members representative of the general public who are appointed by the governor with senate confirmation for six-year overlapping terms. The board has statutory responsibility for approving or disapproving all degree programs and off-campus activities for public junior and senior colleges and universities. In the area of financial planning the board is directed to designate formulas for the use of the governor and Legislative Budget Board in their recommendations of legislative appropriations needed to finance public institutions of higher education. The board is responsible for authorizing elections to create public junior districts and the adoption of standards for the operation of public junior colleges. Texas does not have an office of secretary of education and the Coordinating Board does not function as a cabinet department. The executive officer of the board is appointed by the board and serves at its pleasure.

Institutional Governing Boards

There are now 47 public junior college districts in the state which operate 54 separate campuses. There are 16 statutory governing boards for senior institutions, half of which have responsibility for more than one institution and half for a single institution. Boards responsible for more than one institution and the number of institutions they govern are: (1) the University of Texas System -- four universities, two upper-level institutions, four health science centers, one systemwide nursing school and other research units; (2) Texas A&M University System -- three senior institutions and one college of marine resources; (3) Texas A&I University System -- one university and two upper-level institutions; (4) Texas Tech University -- one university and one medical school; (5) state senior colleges -- four universities; (6) Lamar University -- one university and one lower-division center; (7) East Texas State University -- one university and one upper-level center; and (8) University of Houston -- one university and two upper-level institutions. The boards of the following universities govern single institutions: Texas Southern, Midwestern State, North Texas State, Texas Woman's, Pan American, West Texas State, Stephen F. Austin State and Texas Eastern Universities.

Master Planning

The Coordinating Board in 1968 published a plan for the development of Texas higher Education, Challenge for Excellence. That plan was updated in 1975 following an intensive restudy that evaluated developments in Texas postsecondary education since 1968 and projected statewide needs to 1980. Planning is concerned primarily with public institutions but considers resources and needs of nonprofit private institutions. Plans are recommended to the governor and legislature for their consideration.

1202 Commission

The Governor's Advisory Committee on Postsecondary Education Planning was established by the governor as the interim 1202 commission for the state. The commission consists of 17 members: 4 represent the general public and one member each represents public four-year institutions, public community/junior colleges, vocational-technical institutions, private nonprofit institutions and proprietary institutions. In addition, two members represent the state legislature and one member each represents the Coordinating Board, the State Education Agency, the student population, the State Advisory Council for Vocational-Technical Education, the Texas Industrial Committee and the Texas Employment Commission.

State Student Assistance and Loan Agencies

The Student Services Division of the Coordinating Board, Texas College and University System serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education, functioning ex officio as the State Board of Vocational Education, has responsibility for administration of programs relating to vocational-technical education in Texas' public community colleges, Texas State Technical Institute and other public postsecondary institutions. The Coordinating Board has coordinating responsibility for the community colleges within which postsecondary vocational programs are offered.

State-Level Organization of Private Colleges and Universities

Independent Colleges and Universities of Texas, Inc., serves as the state organization for 43 private colleges and universities.

Licensure/Approval Agencies

The Texas Education Agency has approval authority for vocational-technical and proprietary institutions. The Coordinating Board, Texas College and University System has approval and licensing authority for certain private degree-granting institutions.

UTAH

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The State Board of Regents, established in 1969 and amended in structure and responsibility in 1974, has statutory governing authority for a total of nine public institutions: four senior, three junior and two vocational-technical. The board is composed of 15 members representing the general public and appointed by the governor with senate confirmation for six-year terms of office. The Board of Regents has statutory authority for coordinating and planning for all segments of postsecondary education (public junior and senior, vocational-technical, private and proprietary). In addition, the regents have program approval authority and authority to review institutional budgets and review and make consolidated budget recommendations for public senior and junior institutions. The state does not have an office of secretary of state and the Board of Regents is not a cabinet department. The executive officer of the board is appointed by the board and serves at the pleasure of the board.

Institutional Governing Boards

Utah does not have individual institutional governing boards, but has Institutional Councils, appointed by the governor with senate consent. Institutional Councils have specific statutory authority, but derive their principal campus governance powers by delegation from the Board of Regents. The Utah system therefore combines central policy governance with the Institutional Councils who govern with presidents appointed by the regents and with powers delegated by the regents.

Master Planning

During 1975, the regents sponsored jointly with the State Board for Vocational Education a vocational education symposium to which representatives of the state's labor, business and industry communities were invited. Some of the ideas emerging from that conference helped form the springboard for a major master planning study of all postsecondary vocational-technical education in the state. In May 1975 the regents adopted the report from a task force assigned the vocational-technical study. The report charts the course for developing an open-entrance open-exit individualized model for self-paced vocational-technical education in the decade 1975-85. In addition to this study, master planning efforts have concentrated on developing the assumptions, goals and priorities to guide the regent pattern of continuous and ongoing master planning.

1202 Commission

The Board of Regents has been designated by the governor as the 1202 commission for the state and was augmented by three members, one each representing private nonprofit institutions, vocational-technical institutions and the state manpower planning council.

State Student Assistance and Loan Agencies

The State Board of Regents serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The state does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education. Less-than-baccalaureate occupational education programs exist in the area vocational schools under the jurisdiction of the State Board of Education. The board is also the governing board of the Utah Technical Colleges in Salt Lake City and Provo, the activities of which are coordinated by the regents.

State-Level Organization of Private Colleges and Universities

Utah does not have a state-level organization for private colleges and universities. The regents do have the obligation of seeking the cooperation of the private institutions.

Licensure/Approval Agencies

The State Board of Regents has approval authority for degree programs at the technical colleges. No approval and licensing agency exists for private degree-granting and proprietary schools.

UTAH

PART IV: PLANNED RESEARCH STUDIES AND PUBLICATIONS

Research or issue studies underway or expected to be completed from September 1975 to September 1976.

The state of Utah reports that there are no special research studies underway at this time.

VERMONT

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

There is no statutory or constitutional statewide postsecondary coordinating or planning agency in Vermont.

Institutional Governing Boards

Two institutional governing agencies exist in the state: (1) the Board of Trustees of the University of Vermont and State Agricultural College, which exercises statutory authority for that single institution; and (2) the Board of Trustees of the Vermont State Colleges, which exercises statutory authority for three senior colleges, a single two-year technical college and a statewide open noncampus community college which uses existing resources. Each governing board submits budgets for its institutions to the governor for his consideration. He submits his recommendations on these budgets to the General Assembly, which makes appropriations for their support as it sees fit.

Master Planning

State planning is being conducted in stages. The first stage, the adoption of state goals for postsecondary education, has been completed. The determination of measureable objectives, priorities and other aspects of planning will follow. All planning efforts of the 1202 commission cover public, private, proprietary and vocational postsecondary education.

1202 Commission

The Vermont Higher Education Planning Commission has been established by the governor as the 1202 commission for the state. The planning commission conducts planning and coordination as a matter of policy for all levels of postsecondary education (public senior and junior, vocational-technical, proprietary and private institutions). The commission consists of 17 members: 9 represent the general public including a faculty member of a private nonprofit institution, a student from a 4-year institution, the director of the State Advisory Council on Vocational Education, the director of the state student assistance agency and the director of the State Office of Manpower Services: 4 represent public 4-year institutions and 2 of these 4 members also represent public community and technical institutions; 3 represent private nonprofit institutions; and 1 member represents vocational-technical institutions.

State Student Assistance and Loan Agencies

The Vermont Student Assistance Corporation functions as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education. All less-than-baccalaureate postsecondary occupational education programs fall under governing boards for institutions of higher education except for three schools for licensed practical nurses which are operated by the State Department of Education.

State-Level Organization of Private Colleges and Universities

There is a Vermont Foundation of Independent Colleges, which includes only the smaller private institutions. The Vermont Higher Education Council includes all accredited public and private institutions in the state.

Licensure/Approval Agencies

The State Board of Education serves as the licensing and approval authority for private degree-granting institutions. The State Department of Education serves as approval authority for proprietary schools and there is no existing approval authority for private vocational-technical institutions that do not grant degrees. The State Department of Education also assists the Veterans Administration in approving programs for veterans' education.

VIRGINIA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The State Council of Higher Education, established in 1956 and most recently amended in structure and responsibility in 1974, serves as the statutory coordinating agency in the state. The council consists of 11 members appointed by the governor with confirmation by the legislature. All members represent the general public and serve four-year terms of office. The council has statutory responsibility for planning and coordination and program approval for public senior and junior institutions. The council has responsibility for the development of all budget guidelines and formulas. In addition, the council reviews institutional budgets and makes budget recommendations for all public institutions. Virginia has a statutory office of secretary of education established in 1972. The State Council of Higher Education is not a cabinet department and the executive officer of the council is appointed by the council and serves at the pleasure of the council.

Institutional Governing Boards

The State Board for Community Colleges has statutory authority for 23 public junior colleges under the coordination of the council. There are 13 other institutional governing boards in the state. The statutory boards are the Board of Visitors of George Mason University, Longwood College, Madison College, Mary Washington College, Old Dominion University, Radford College, Virginia Commonwealth University and the Virginia Military Institute. Norfolk State College, Virginia Polytechnic Institute and State University and Virginia State College each have constitutional governing boards for single senior institutions. The The Board of Visitors of the College of William and Mary has constitutional governing authority for two senior and one junior public institutions. The Board of Visitors of the University of Virginia has statutory authority for two senior public institutions.

Master Planning

The council is statutorily charged with the responsibility for master planning. The most recent master plan was published in 1972.

1202 Commission

In 1975 the governor designated the Council of Higher Education as Virginia's 1202 commission. The council established a postsecondary advisory committee to assist it and the council assumed the responsibilities of the Higher Education Facilities Commission.

State Student Assistance and Loan Agencies

The Council of Higher Education serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant Program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education. All less-than-baccalaureate occupational programs, including the area vocational schools designated as postsecondary, are within the planning and coordinating jurisdiction of the State Board for Community Colleges and the Council of Higher Education.

State-Level Organization of Private Colleges and Universities

The Council of Independent Colleges in Virginia serves as the state-level organization representing 25 private colleges and universities.

Licensure/Approval Agencies

The State Council of Higher Education serves as the licensing and approval agency for private degree-granting institutions. The State Department of Education serves as the approval authority for vocational-technical and proprietary institutions.

WASHINGTON

PART I: STATE STRUCTURE

State-Level Coordination and/or Governing Agency

In July 1975 the Council on Higher Education, the statewide coordinating body for postsecondary education in Washington, was renamed and restructured to better reflect the composition and extent of postsecondary education in the state. The new Council for Postsecondary Education is comprised of 16 members, including 9 public members appointed by the governor with senate confirmation. Statutory requirements states that one of these public members be a student and serve a three-year term of office. The remaining eight council members each serve six-year terms of office. One representative each of the executive branch, four-year public institutions, private institutions, the State Board for Community College Education, and proprietary institutions; the superintendent of public instruction and the director of the Commission for Vocational Education serve as ex officio members on the council. The Council for Postsecondary Education has statutory responsibility for: (1) determining the educational needs of the state and identifying priorities among them, (2) specifying resources necessary to meet needs, (3) defining institutional roles and missions, (4) conducting budgetary reviews to determine conformity with the state plan and (5) reviewing university and college fee levels, admissions and transfer policies and new and existing degree programs. The state does not have an office of secretary of education and the council does not function as a cabinet department. The executive officer of the council is appointed by the council and serves at its pleasure.

Institutional Governing Boards

The State Board for Community College Education, created by the Community College Act of 1967, is the central administrative agency for the 27 public community colleges. Each of the system's state-supported community colleges also has its own local governing board. The district boards are responsible for the operation of the community colleges, determination of curricula (with state board review and approval), awarding of degrees and establishment of necessary local administrative rules and regulations, while the state board is responsible for policies covering concerns of a statewide nature (budget and funds allocations, standard policies and institutional locations). Each four-year public institution is governed by an individual statutory governing board -- the Boards of Trustees of Central Washington, Eastern Washington, Evergreen, and Western Washington State Colleges and the Board of Regents of the University of Washington and Washington State University.

Master Planning

The Council for Postsecondary Education in 1975 released its draft long-range plan, Policy and Planning Recommendations for Washington Postsecondary Education, for public review. This document addresses the full array of educational activities conducted in the state, including those offered in the proprietary sector and vocational-technical institutions. The report outlines both the assumptions upon which the plan is based and a design for its implementation and continuous review. Issues covered in the report include utilization of faculty resources, manpower planning and analysis, consumerism in postsecondary education and postsecondary education financing. Recommendations contained in the report were approved by the council in January 1976.

1202 Commission

Under the July 1975 statute, the Council for Postsecondary Education was designated the state 1202 commission.

State Student Assistance and Loan Agencies

The Council for Postsecondary Education serves as the state student assistance agency and administers five state programs of financial aid and the state's participation in the federal State Student Incentive Grant program. The state does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The Commission on Vocational Education serves as the State Board of Vocational Education. It is responsible for the state's vocational education plan prepared in compliance with federal requirements and for adjudication between the vocational-technical institutes under the K-12 system and the vocational programs in the community colleges. In Washington, five of the area vocational education schools are vocational-technical institutes under the jurisdiction of the state superintendent of public instruction. One single purpose vocational institute (actually a community college) is the responsibility of the State Board for Community College Education.

State-Level Organization of Private Colleges and Universities

The Washington Friends of Higher Education and the Independent Colleges of Washington serve as the state-level voluntary organizations for the private colleges and universities.

Licensure/Approval Agencies

Washington does not have a statutory approval and licensing authority for independent degree-granting institutions, although the majority of independent four-year institutions are accredited. Legislation is pending which will require the approval and licensing of proprietary and independent degree-granting institutions.

WEST VIRGINIA

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Regents, established in 1969 and amended in structure and responsibility in 1971, serves as the statutory governing authority for a total of 15 public institutions in the state: 4 junior and 11 senior colleges. The board is composed of 10 members, 9 appointed by the governor with senate confirmation and 1 member serving in an ex officio capacity. Nine members represent the general public and all serve six-year terms of office. The board has statutory responsibility for planning and coordination for public junior and senior institutions. In addition, the board has statutory responsibility for program approval, institutional budget review and making consolidated budget recommendations for public senior and junior institutions. The state does not have an office of secretary of education and the board does not function as a cabinet department. The executive officer of the board is appointed by the board and serves at the pleasure of the board.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

The state has just completed a total and comprehensive academic program review at all 15 public college and university campuses. Specific decisions regarding program terminations and new program thrusts were submitted to the regents in July 1975. Further information concerning the scope of state master planning is not available.

1202 Commission

The Board of Regents has been designated by the governor as the 1202 commission. The board was augmented to include three representatives of public vocational-technical institutions (chairman of state Advisory Council on Vocational Education and two members of the State Board of Education), two representatives of private nonprofit institutions and one member representing proprietary schools.

State Student Assistance and Loan Agencies

The West Virginia Board of Regents serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education. Less-than-baccalaureate occupational education programs are offered both in area vocational schools under the jurisdiction of the State Board of Education and in institutions under the jurisdiction of the Board of Regents.

State-Level Organization of Private Colleges and Universities

The West Virginia Association of Private Colleges serves as the organization for nine private colleges and universities in the state.

Licensure/Approval Agencies

The Board of Regents has approval and licensing authority for private degree-granting institutions. The Department of Education has approval authority for vocational-technical and proprietary institutions.

WISCONSIN

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Board of Regents of the University of Wisconsin System, established in 1971 and amended in structure and function in 1973 and 1974, serves as the statutory governing agency for public institutions: 13 senior and 14 freshman-sophomore liberal arts centers. The board consists of 16 members serving 7-year terms of office; 14 members are appointed by the governor with senate confirmation and 2 members serve in an ex officio capacity. The board has statutory responsibility for planning and coordination, program approval, institutional budget review and making consolidated budget recommendations for all units of the University of Wisconsin System. The state does not have an office of secretary of education or a cabinet-level department for postsecondary education. The executive officer of the Board of Regents is appointed by the board and serves at the pleasure of the board.

The Wisconsin Board of Vocational, Technical and Adult Education is composed of 12 members. Three employers, three employees and three members at large appointed by the governor and ratified by the senate for six-year terms. The president of the Board of Regents, the superintendent of the Department of Public Instruction and the commissioner of the Department of Industry, Labor and Human Relations serve as ex officio members. The state is divided into 16 vocational, technical and adult education districts, which include 36 technical-vocational institutions, 3 of which offer a lower division program. The agency is charged with the statutory mission of providing programs in vocational, technical and adult short-term and apprenticeship programs below the baccalaureate degree. The board has statutory responsibility for planning, coordinating, program approval and evaluation and the disbursement and accountability for state and federal funds.

Institutional Governing Boards

See State-Level Coordinating and/or Governing Agency above.

Master Planning

Four academic planning statements were prepared by university central administration and approved by the Board of Regents. They form the overall basis or philosophy for planning in the system and cover: (1) the University of Wisconsin System planning principles, (2) the use of job market and placement information in academic planning, (3) faculty development and renewal and (4) the definition of the contractural academic year as full nine months. The system's continuing academic planning efforts during 1975 included completion of reports and recommendations in 10 academic areas by task forces. In addition, at the request of the governor, a system task force was created to develop recommendations concerning the phase-out/phase-down of programs within the system. In 1975 the legislature endorsed the task force recommendations concerning a four-year planning cycle and a study of possible consolidation of the Superior and Duluth campuses.

1202 Commission

Wisconsin does not have a designated 1202 commission.

State Student Assistance and Loan Agencies

The State of Wisconsin Higher Educational Aids Board serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. The state has a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Vocational, Technical and Adult Education is the State Board of Vocational Education (see State-Level Coordinating and/or Governing Agency).

State-Level Organization of Private Colleges and Universities

The Wisconsin Association of Independent Colleges and Universities serves as the organization for 18 private colleges and universities in the state.

Licensure/Approval Agencies

Wisconsin does not have a designated approval and licensing authority for private degree-granting institutions. The Educational Approval Board serves as the licensing and approval agency for proprietary schools in the state and the State Board of Vocational, Technical and Adult Education has approval authority for vocational-technical institutions. The Educational Approval Board is attached to the Board of Vocational, Technical and Adult Education for administrative purposes.

WYOMING

PART I: STATE STRUCTURE

State-Level Coordinating and/or Governing Agency

The Higher Education Council, established in 1969 and amended in structure and responsibility in 1973, serves as the statutory coordinating agency for the state. The council consists of nine members serving five-year terms of office. Five members are appointed by the governor, two serve in an ex officio capacity (governor and state superintendent of public instruction), and two members are from the state legislature. Of those members appointed, three represent the general public and two represent public institutions. The superintendent of public instruction represents vocational-technical, private nonprofit and proprietary institutions. The Higher Education Council has statutory responsibility for planning and coordination for junior and senior public institutions and conducts planning and coordination as a matter of policy for public senior and junior institutions and for proprietary institutions. In addition, the council has the responsibility for program review and recommendations, institutional budget review and making budget recommendations as a matter of policy for senior and junior public institutions. Wyoming does not have a state office of secretary of education and the council does not function as a cabinet level department. The executive officer of the council is appointed by the council and serves at its pleasure.

Institutional Governing Boards

There are two institutional governing boards in the state -- the Community College Commission with statutory authority for seven junior institutions and the Board of Trustees of the University of Wyoming with constitutional governing authority for that single institution.

Master Planning

The Higher Education Council's activities during 1974-75 included the development of a higher education information system and compilation of needs assessment information for new program development. Based on the review of each institution in terms of long-range planning, personnel management, physical plant operations, financial management and space utilization, a broader knowledge of problems in each college and the university will determine the changes necessary to fulfill the needs of the institutions. Two studies concerned with economic indicators and enrollment projections were initiated to supplement the master planning effort. Data related to institutional and program costs and enrollment will be projected to 1985. Included in the economic study will be a model to test the feasibility of alternative methods of financing future postsecondary education in Wyoming.

1202 Commission

The Higher Education Council has been designated by statute as the 1202 commission. The membership of the council was not augmented when it became the 1202 commission.

State Student Assistance and Loan Agencies

The Higher Education Council serves as the state student assistance agency and the state participates in the federal State Student Incentive Grant program. Wyoming does not have a state guaranteed loan program under the federal insured loan program.

State Board of Vocational Education

The State Board of Education is the State Board of Vocational Education.

State-Level Organization of Private Colleges and Universities

There are no private nonprofit degree-granting institutions in Wyoming.

Licensure/Approval Agencies

The State Department of Education serves as the licensing and approval authority for private degree-granting institutions. The licensing and certification services unit serves as the approval authority for vocational-technical and proprietary institutions.

WYOMING

PART II: DESCRIPTIVE STATISTICS[1]

State Population (1974 estimate): 359,000

% of State Population Urban/Rural (1970): 60.5/39.5

Personal Income Per Capita (1974): $5,404

General State Expenditures Per Capita (1974): $684.81

State-Local Tax Revenues as % of Total Personal Income (1972): 11.9%

State Appropriations for Higher Education as a % of State Tax Revenue (1974): 21.28

(1975): 17.36

1968 AND 1972 IN-MIGRATION

WYOMING

PART III: CURRENT PUBLICATIONS AND REPORTS

Reports and publications completed from September 1974 to September 1975.

Title	Frequency	Is This Available for Distribution?	Requested by Whom	Agency Completing The Report	Topic or Problem Areas
Wyoming Higher Education Statistics 1969-74	Annual	Yes	State legislature	Higher Education Council	I1, I4
Wyoming 1202 Commission Annual Report	Annual	Yes	Federal government	Higher Education Council	H2, I1
Wyoming Higher Education Facilities Report	Annual	Yes	Federal government	Higher Education Council	E1, E5, E7, E8
Wyoming High School Senior Study follow-up study	Annual	Yes	State legislature	Community College Commission	A1, A5, A6, A12
Wyoming Higher Education Annual Report	Annual	Yes	State legislature	Community College Commission	H5, I1
Wyoming Community College Commission	Annual	Yes	State legislature	Community College Commission	H5, I1

PART IV: PLANNED RESEARCH STUDIES AND PUBLICATIONS

Research or issue studies underway or expected to be completed from September 1975 to September 1976.

Title	Completion Date	Frequency	Agency Completing the Study	Target Group	Topic or Problem Areas
Financing Present and Future Higher Education Needs in Wyoming: An Initial Analysis	February 1976	One-time	Higher Education Council	State legislature and master plan	A9, C2, C4, G1, G5, G7, H2
Follow-up of Wyoming Post-Secondary Graduates	May 1976	One-time	Higher Education Council	State legislature and master plan	A1, A5, A6, A12

APPENDIX A

The following data sources were used for each state profile:

State Population (1974 Estimate)

Federal State Cooperative Program for Population Estimates, Series P. 26, Current Population Reports, U.S. Bureau of Census.

% of State Population Urban/Rural (1970)

Statistical Abstract: 1974.

Personal Income Per Capita (1974)

Survey of Current Business, August 1975, Volume 55, Number 8, Bureau of Economic Analysis, U.S. Department of Commerce.

General State Expenditures Per Capita (1974)

U.S. Bureau of Census, State Government Finances in 1974, Series GF-74, No. 3.

State-Local Tax Revenue as % of Total Personal Income (1972)

Statistical Abstract: 1973 and 1974.

State Appropriations for Higher Education as a % of State Tax Revenue (1974) (1975)

Lyman A. Glenny and Janet H. Ruyle, State Tax Support of Higher Education: Revenue Appropriation Trends and Patterns, 1963-1975, to be published approximately January, 1976.

1968 In-migration Data

Residence and Migration of College Students, Fall 1968 Analytical Report by George H. Wade, NCES.

1972 In-migration Data

HEGIS Resident and Migration Report of 1972 as found in the EDSTAT II data base maintained by the National Center for Education Statistics.

Headcount Enrollment for Degree-Credit Programs

1970-71 and 1974-75 enrollment data exclude unclassified students unless otherwise indicated. Extension students are included. Data source is the HEGIS Opening Fall Enrollment report as found in the EDSTAT II data base maintained by the National Center For Education Statistics (NCES). This data has been verified by each state and changed as appropriate by the state agency.

1975-76 enrollment include unclassified and extension students unless otherwise indicated. Data has generally not been verified, which is noted on the table. No notation indicates that the data has been verified and corrected as necessary. The data source is Prepublication Release of Preliminary 1975-76 Opening Fall Enrollment data as compiled by the National Center for Education Statistics, December, 1975; published by Department of Health, Education, and Welfare; Office of the Assistant Secretary for Education; on December 5, 1975.

COLORADO

HEGIS data as supplied by NCES data tapes were judged to be highly inaccurate by the Colorado Commission on Higher Education (CCHE). CCHE has supplied corrected headcount enrollment totals. However, part-time and full-time enrollment aggregations are not maintained by CCHE. Estimated percents of the total headcount enrollment for part-time and full-time students have been computed using existing HEGIS data. Non-degree students and extension students are not included in CCHE enrollment totals.

A - only 14 institutions are included for 70-71 estimates.

B - % and totals include University of Northern Colorado and Colorado School of Mines although they are doctoral-granting institutions and classified by CCHE as public universities.

C - includes one regionally accredited private degree-granting institutions for 70-71 only, Colorado Alpine.

D - totals do not include the University of Northern Colorado and Colorado Schools of Mines.

E - Mesa College changed from a two-year to four-year institutions between 1970-71 and 1974-75.

NORTH CAROLINA

The University of North Carolina requested that public universities in the state be classified as public universities, and public 5-year institutions. The following data is offered for these categories:

Public Universities (3 institutions)

	Full-time	Part-time	Total
1970-71	31,483	6,690	38,173
1974-75	35,841	8,621	44,462
1975-76	37,719	9,747	47,466

NORTH CAROLINA (cont.)

Public 5-Year (6 institutions)

	Full-time	Part-time	Total
1970-71	28,544	4,659	33,203
1974-75	33,807	7,466	41,273
1975-76	35,545	8,785	44,330

(extension students are excluded and unclassified students are included in the North Carolina data).

Public 2-Year data includes community colleges and technical institutes.

NEW YORK

Data includes unclassified students in all aggregations. The private two-year figures exclude 23 institutions which in Fall, 1974 had enrollment figures of 8,683 Full-Time students and 3,955 Part-Time students. These institutions existed in 1970, but were not authorized to grant degrees. They have been authorized to grant degrees on a "program-by-program basis" beginning in 1973, and later. "Number of institutions" and enrollment also excludes two federally sponsored institutions, and the "Regents External Degree Program" which is authorized to grant degrees but does not "enroll students."

VERMONT

The Vermont Higher Education Commission does not have part-time student enrollments for 1970-71. Although EDSTAT II and HEGIS had part-time enrollments, they were judged to be highly inaccurate and were not included.
